

Sun City Grooming AZ Enhances Pet Care With Prima FurLuxe Bathing System

Sun City Grooming AZ delivers a deeper, more sanitary clean while supporting dogs with sensitive skin with advanced bathing technology for Arizona's West Valley

SUN CITY, AZ, UNITED STATES, July 22, 2026 /EINPresswire.com/ -- Sun City Grooming AZ is enhancing its professional pet grooming services with the Prima FurLuxe bathing system, an advanced dog-washing technology designed to provide a deeper clean, consistent shampoo application, and a more sanitary bathing experience.

Serving pet owners in Sun City, Peoria, Surprise, Glendale, and surrounding West Valley communities, Sun City Grooming combines experienced care

with modern grooming equipment. The Prima FurLuxe system applies shampoo directly into a fresh water stream and uses an oxygenated spray to help lift dirt, oil, dander, and buildup from the roots of the coat outward.

Unlike other bathing methods that often recirculate used water, FurLuxe delivers fresh water from the source throughout the process. Its direct-injection design creates a consistent shampoo dilution and allows groomers to switch to a clean-water rinse without changing tools. This helps reduce leftover product residue and supports a cleaner, more controlled, and comfortable bathing experience for every pet.

For dogs with sensitive skin, the ability to regulate shampoo application and rinse thoroughly can be especially important. Sun City Grooming AZ also uses carefully selected grooming products without dyes or perfumes, helping the team personalize their services according to a dog's coat, age, comfort level, and individual needs. Grooming services do not replace veterinary care, but a gentle, well-managed bathing routine certainly makes the grooming experience more
