Following the successful launch of its official online store in the Philippines, Kuvings continues to strengthen its presence in the country's growing online home appliance market by focusing on its innovative AUTO Series. After introducing the flagship AUTO10S, the company is now bringing greater attention to the AUTO6 Hands-Free Slow Juicer, a compact cold press juicer that delivers effortless hands-free operation in a space-saving design.

Designed for everyday use, the AUTO6 Hands-Free Slow Juicer stands out as a 2-in-1 juicer by including both a juice strainer and an ice cream strainer as standard accessories. The AUTO6 is also positioned as an affordable juicer, offering premium cold press juicing

technology at an accessible price point without compromising on performance. Its compact footprint, hands-free operation, and multifunctionality have made it an attractive choice for first-time slow juicer buyers and health-conscious consumers looking for exceptional value.
