

Trade Directly In Browser: JustMarkets Launches Its Web Terminal

Technical Performance of The JustMarkets Web Terminal is Optimized

JOHANNESBURG, GAUTENG, SOUTH AFRICA, July 31, 2026

/EINPresswire.com/ -- Trade Directly in Browser: [JustMarkets](#) Launches Its [Web Terminal](#)

Multi-asset global broker JustMarkets keeps developing its trading ecosystem. The newest addition to the platform is the Web Terminal, an advanced browser-based trading terminal now available to all clients in any country supported by the broker.

Before the official launch, the Web Terminal went through a careful preparation phase, during which the team fine-tuned its technical performance and gathered user feedback.

“

At JustMarkets, we never stop evolving. With the Web Terminal, we wanted to remove every barrier between traders and the markets. Now every client can trade directly from their browser.”

JustMarkets CEO

instantly from any device.

Getting Started with the Web Terminal

To begin, the user should follow several simple steps to open the trading platform. Here is how it works:

"At JustMarkets, we never stop evolving," said a JustMarkets representative. "With the Web Terminal, we wanted to remove every barrier between traders and the markets. Now every client can trade directly from their browser, with all the professional tools they need at their fingertips."

Built for MT5 Accounts

The Web Terminal is fully available for MT5 accounts, giving traders access to a professional trading environment without downloading or installing any software. Everything runs right in the browser, so clients can start trading

Choose a trading account.
Press the "Trade" button.
In the appeared window, choose "JustMarkets Terminal".
That's it, the terminal opens instantly, ready to go.

Advanced Features Changing the Trading Experience

The Web Terminal has an advanced set of tools placed in an intuitive and convenient user interface:

Advanced charts – modern and responsive charts supplemented with a variety of technical indicators and graphical tools.

Flexible volume settings – the option to set trade volume in lots or in units of the asset.

Detailed asset descriptions – a thorough description for every tradable instrument

Market sentiment tool – real-time trading sentiment that reflects the current mood of the market.

Timely updates – regarding trading schedules and margin changes.

Convenient position management – easy handling of multiple trading positions and pending orders.

What's Next for JustMarkets

The launch of the Web Terminal is another recent step in JustMarkets continuous journey of innovation. Having introduced JustMarkets mobile app for trading on the go, and now delivering a full-featured browser-based terminal, the broker keeps raising the bar for modern trading platforms.

JustMarkets stays committed to growth, with more features, tools, and improvements already on the horizon.

About JustMarkets

Trusted by 3M+ traders across 160+ countries, JustMarkets brings 14 years of experience to its vision of becoming the world's most customer-centric broker. Its commitment to excellence has earned 50+ international industry awards, while the company's reliability is backed by 5 licenses from CySEC, FSCA, FSC, FSA, and FSC of the British Virgin Islands.
