

GALAXY LIFTS RAISES THE ROOF WITH ACQUISITION OF MAJIC STAIRS

Patented motorized stairs and attic lifts extend Galaxy's home access expertise

OCALA, FL, UNITED STATES, July 30, 2026 /EINPresswire.com/ -- Galaxy Lifts, a leading manufacturer of outdoor cargo and passenger lifts, has acquired Majic Stairs, an Ocala, Florida-based designer and manufacturer of patented motorized attic access and storage systems. Galaxy Lifts is a division of Canopy Brands.

Founded in 2016, Majic Stairs developed a fully automated, retractable staircase that replaces the traditional pull-down attic ladder with a walkable stair system featuring dual handrails and an attic safety railing. Its complementary Majic Attic Lift raises and lowers heavy items between the attic and the space below, reducing the need to carry bulky objects up and down a ladder.

Made in the United States, Majic Stairs products serve homeowners, contractors and builders throughout the U.S., Canada and the Caribbean.

"Majic Stairs solves a familiar problem in a fundamentally better way," said Jason Hestekin, President of Galaxy Lifts. "Its patented products make attic access and storage safer and easier, and they fit naturally with Galaxy's expertise in motorized access."

"We built Majic Stairs around a simple idea: getting into an attic and moving items in and out should not require a risky ladder or heavy lifting," added Steve Corun, General Manager of Majic Stairs. "Galaxy and Canopy share our commitment to safety, quality and practical innovation. Their experience and resources will help us build on our momentum."

Majic Stairs has grown largely through customer referrals, word of mouth and a strong

across brands.
