

QuarqAI Brings Partner Ecosystem Intelligence Platform to Market

Neurodivergent-built platform turns previously invisible partner value into defensible capital decisions.

DENVER, CO, UNITED STATES, July 28, 2026 /EINPresswire.com/ -- QuarqAI announced today that its partner ecosystem intelligence platform is operational and ready for market, with flagship accounts already onboarding.

Created by a neurodivergent team whose pattern recognition challenged traditional partner measurement, QuarqAI solves a problem

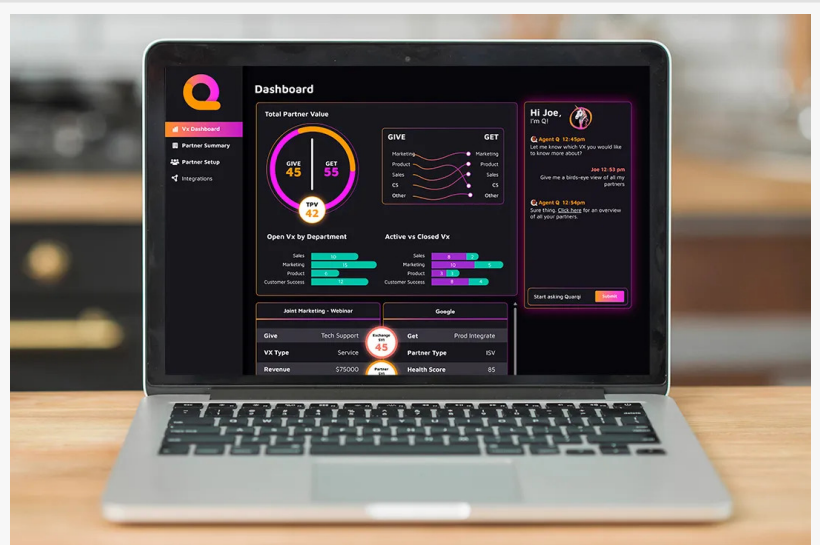

spreadsheets, QBRs, and surveys cannot: proving what an ecosystem is worth, what it costs, whether its value is durable, and where value is leaking.

“

We built QuarqAI to make invisible partner value measurable, defensible, and actionable, so leaders can confidently decide where to invest.”

*Chris Messina, Founder + CEO,
QuarqAI*

Agent Q + QuarqAI Dashboard

QuarqAI connects to existing business systems and continuously measures Total Partner Value, capital efficiency, structural health, and two-way value exchange. Automated monitoring detects partner disengagement and produces board-ready reporting grounded in confirmed data and clearly disclosed inference.

The result is a defensible capital decision: invest, maintain, constrain, or reallocate.
