Global Clean Energy Secures Equity Facility to Support Growth Initiatives and Announces Board Update

Initial $150,000 Tranche Provides Near-Term Capital; Greg Godbout Appointed to Board as Company Advances AI, Energy, and Resilience Strategy

Creating value, one milestone at a time.

HOUSTON, TX, UNITED STATES, July 29, 2026 /EINPresswire.com/ -- Global Clean Energy, Inc. (OTCID: GCEI), a leader in sustainable energy and innovation, today announced that it has entered into an equity facility with a family office designed to support the Company's strategic growth initiatives.

Under the terms of the facility, the family office has committed capital structured around up to 1 million dollars convertible into shares and associated warrants, with an initial already funded tranche of $150,000 priced at $0.05 per share. The first tranche also includes 30-month warrants exercisable at $0.25 per share and a put feature at $0.50, providing GCEI with near-term capital flexibility as it continues to expand its operating platform.

The Company believes this financing strengthens its ability to advance priority initiatives across its clean energy, AI, and infrastructure resilience divisions. The equity facility is intended to support execution, provide additional financial flexibility, and help position GCEI to pursue both operational growth and strategic opportunities as they arise.

In connection with this update, Global Clean Energy also announced the resignation of Gerald Enloe from its Board of Directors. The Company thanks Mr. Enloe for his years of service and contribution to GCEI's development.

Global Clean Energy is also pleased to announce the appointment of Greg Godbout to the Board of Directors. Mr. Godbout has played a central role in shaping the Company's AI sales and pipeline strategy and broader innovation roadmap, including the buildout of initiatives connected to Flamelit and the Company's AI for Humanity mission.

"This equity facility provides Global Clean Energy with the flexibility to accelerate execution as we scale across clean energy, applied AI, and resilience," said CEO Dr. Earl Azimov. "Greg Godbout's appointment to the Board reflects the growing impact of his government sales initiatives, including the expansion of a robust contract pipeline and successful engagement with public sector partners. His leadership continues to drive revenue visibility, strategic alignment, and disciplined execution as we advance the company's next phase of growth. We also extend our sincere gratitude to Gerald Enloe for his years of service and valued contributions."

The Company continues to focus on creating an integrated platform that combines sustainable infrastructure, applied intelligence, and real-world resilience solutions. Management believes this financing and board evolution represent important steps in supporting that long-term direction.

About Global Clean Energy, Inc. (GCEI)
