

Matrix Chiropractic Named 2026 Best of South Carolina Regional Award Winner

GREENVILLE, SC, UNITED STATES, September 3, 2026 /EINPresswire.com/ -- Matrix Chiropractic has been named a recipient of the 2026 Best of South Carolina Regional Award, recognizing the Greenville practice's commitment to helping patients address pain at its source through personalized chiropractic care and a whole-body approach to wellness.

Led by Dr. Molly Lee, Matrix Chiropractic has built its reputation by focusing on individualized care rather than one-size-fits-all treatment. The practice serves patients of all ages with services including chiropractic adjustments, corrective exercises, spinal decompression, pediatric and prenatal chiropractic care, personal injury treatment, lifestyle guidance, and SoftWave Therapy, an FDA-cleared, non-invasive treatment that supports the body's natural healing process. Rather than simply treating symptoms, the team works to understand the underlying causes of discomfort, helping patients recover from injuries, manage chronic pain, improve mobility, and maintain healthier, more active lifestyles. That patient-centered philosophy has made Matrix Chiropractic a trusted resource for families and individuals throughout the Greenville community.

"We're honored to receive this recognition," said Dr. Molly Lee, owner of Matrix Chiropractic. "Our goal has always been to listen first, create care plans that fit each person's unique needs, and help our patients feel empowered throughout their health journey. This award reflects the trust our community places in us every day, and we're incredibly grateful for that."

As the practice looks ahead, Matrix Chiropractic remains committed to combining evidence-informed care with compassionate service, investing in advanced therapies, and helping more people move comfortably through everyday life. The 2026 Best of South Carolina Regional Award serves as both a milestone and a reminder of the practice's ongoing mission to help patients achieve lasting wellness, one individualized treatment plan at a time.
