"For more than 30 years, our responsibility has been to stand up for people during some of the most difficult moments of their lives," said [Jeffrey L. Phillips](#), Founder of Phillips Law Group. "Reaching this milestone is about more than a number. It represents individuals and families who trusted us to fight for their futures and hold negligent parties accountable."

Under the leadership of Phillips and Managing Attorney Nasser Abujbarah, the firm has continued to expand its

reach while maintaining a strong focus on personalized client service, clear communication and meaningful results.

"This achievement reflects the work of our entire team," Abujbarah said. "Every case requires preparation, collaboration and a willingness to keep pushing when insurance companies

undervalue what an injured person has experienced. We are proud of these results, but even more proud of the impact they have on our clients' lives."

Phillips Law Group's consistent results, experienced leadership and commitment to its clients have contributed to continued recognition from legal, business and community organizations. The firm and its attorneys regularly receive awards and honors for professional excellence, workplace culture, legal advocacy and community involvement.

The firm has now recovered more than \$2 billion for clients and has represented more than 185,000 individuals and families throughout its history.

"This milestone reinforces why Phillips Law Group continues to be recognized across the legal industry," Phillips added. "Awards are meaningful, but they are earned through the work our attorneys and staff do every day on behalf of our clients."
