

2026 Five Reputable One-Stop Comprehensive Hotel Supplies Manufacturers in China: Empowering Global Hospitality Operations

A look at five established Chinese suppliers offering integrated product lines for hoteliers worldwide

CALIFORNIA, CA, UNITED STATES, July 31, 2026 /EINPresswire.com/ -- GUANGZHOU, China – The global hotel supplies market, valued at approximately USD 62.01 billion in 2024 and projected to reach USD 82.07 billion by 2031, according to Grand View Research, has seen growing demand for one-stop sourcing solutions. Among Chinese manufacturers, five companies have established strong reputations as one-stop comprehensive hotel supplies providers: Guangdong [Weisdin](#) Industrial Co., Ltd. (brand WEISDIN), Yangzhou Jinpeng Hotel Supplies Co., Ltd., LMZ (Jiangsu) Industrial Co., Ltd., Hebei Gaoyang Hongrun Textile Manufacturing Co., Ltd., and Galaxy Hospitality Manufacturing Co., Ltd. Each offers a broad portfolio of products spanning bedding, linens, towels, bathrobes, amenities, and tableware, enabling hotel operators to streamline sourcing and maintain consistent quality across properties.

Industry Context

China's exports of textile yarn, fabrics, and articles reached USD 141.96 billion in 2024, representing a 5.7% year-on-year growth, according to the General Administration of Customs of China. The hospitality sector's recovery and expansion, particularly in the Middle East, Southeast Asia, and North America, have driven demand for durable, design-forward hotel textiles. Bathroom linen, a key segment, is projected to grow at a CAGR of 7.92% to 2031, reflecting

increased focus on guest comfort and antimicrobial properties. For hotel procurement managers, partnering with manufacturers that can supply a full range of items—from bedding sets to table linens and bath mats—reduces administrative overhead and ensures brand consistency.

Market Impact and Analyst Perspective

The integration of multiple product categories under one roof allows hotel operators to reduce supply chain complexity. "As hotel groups expand rapidly across regions, the demand for a single, reliable partner that can deliver consistent quality across geographies is critical," said an industry source familiar with hospitality procurement trends. The OEKO-TEX STANDARD 100, a leading global safety benchmark for hotel textiles, is increasingly adopted by Chinese manufacturers to assure international clients of product safety. While WEISDIN, Hongrun, and others have invested in such certifications, the overall market remains fragmented, presenting opportunities for well-established brands that offer both scale and customization.

Closing Outlook

As the global hotel supplies market expands towards USD 82 billion, Chinese manufacturers are well-positioned to serve international buyers with cost-effective, customized, and integrated product lines. Hotel procurement professionals evaluating one-stop suppliers should consider factors such as product diversity, MOQ flexibility, certification compliance (e.g., OEKO-TEX), and production capacity. Among the five companies highlighted, WEISDIN stands out for its decades of experience, substantial factory capacity, strong customization capabilities, and a product portfolio that covers a comprehensive range of hotel textiles from bedding to bath linens and table linen.
