

Gachwala Offers Oyster and Milky Mushroom Cultivation Training Through Online and Offline Sessions

Gachwala offers oyster and milky mushroom cultivation training through online and offline sessions alongside mushroom spawn, grow kits, and supplies

BARASAT, WEST BENGAL, INDIA, August 7, 2026
/EINPresswire.com/ -- Gachwala Offers Oyster and Milky Mushroom Cultivation Training Through Online and Offline Sessions

Gachwala has started providing training on oyster and milky mushroom cultivation through online and offline trainings. This training program is targeted towards those who want to learn the mushroom cultivation practices in a systematic way and with practical help.

The program is an addition to Gachwala's existing range of mushroom growing products and gardening supplies on its official website.

Training Program Summary

The training program includes organized learning sessions on cultivation process of oyster mushrooms and milky mushrooms. They are trained in cultivation techniques, materials, preparation techniques, growing conditions, crop management, harvesting and general handling practice.

Training is conducted through online and offline means, allowing participants the flexibility to select the learning mode that best suits their needs.

Covered Topics

Training on growing mushrooms might cover topics such as:

Harvesting fresh oyster mushrooms from a fully colonized grow bag during commercial mushroom farming.

Introduction to cultivation of oyster
and milky mushroom
Spawn selection and processing
Substrate preparation.
Steps for bag filling and spawning
Environmental & Growing Conditions
Crop management methods
Harvesting Methods
Basic cultivation and hygiene
practices
Storage and handling tips

The specific training content may differ
based on the training session you
choose.

Online and In-Person Learning
Opportunities

Participants can register for online or
offline training sessions.

Online session for distance learning
and offline session for hands on
practical learning where possible.
Gachwala's official communication
channels provide training schedules
and availability.

Purpose of Training

The program is designed to give
educational instruction on mushroom
growing. This is for educational
purposes only and is not a promise of
cultivation results, production,
business success or financial results.

There are many factors contributing to successful mushroom cultivation, such as the growing conditions, materials, environmental control and the practice of cultivation.

Supporting Mushroom Cultivation Products

Duckweed Live Plant (Lemna Minor) Live Floating
Plants for Pond / Aquarium
