

JobNimbus Named No. 1 Roofing Software on G2 Based on Verified Customer Reviews

Ranked entirely by verified customer reviews, JobNimbus took the top spot ahead of 72 competing solutions in G2's Roofing Software category.

LEHI, UT, UNITED STATES, August 11, 2026 /EINPresswire.com/ -- [JobNimbus](https://www.jobnimbus.com/), the AI-enabled CRM for roofing and exterior contractors, has been named the #1 Roofing Software solution by [G2](https://www.g2.com/), ranked entirely by the people who use it every day.

G2 is the world's largest and most trusted data source on B2B software.

Unlike analyst rankings or vendor-sponsored reports, G2's ratings come from verified reviews written by real users. Earning the #1 spot means JobNimbus customers made this call.

"Earning a Leader position in a G2 Report is highly competitive and rooted in verified customer reviews. Congratulations to JobNimbus for achieving this distinction. Buyers can be confident this ranking reflects the authentic experiences of real users." Godard Abel, co-founder and CEO, G2

“

This recognition comes straight from roofing contractors who use JobNimbus every day. It tells us that giving contractors one connected system actually changes how they run their business.”

Bryan Oram

"This recognition comes straight from roofing contractors who use JobNimbus every day. It tells us that giving contractors one connected system, instead of a handful of disconnected tools, actually changes how they run their business. That's the validation that matters most to us."

Bryan Oram, CRO, JobNimbus

What the #1 ranking means:

G2's Roofing Software Grid® Report ranks products on two dimensions: customer satisfaction

scores drawn from verified reviews, and market presence. Reaching the #1 position requires consistently high ratings across the categories buyers care about most: ease of use, quality of support, and likelihood to recommend.

Only about 10% of all vendors on G2 earn a spot in any given quarterly report. Ranking #1 means JobNimbus outperformed 72 competing solutions based entirely on what customers said in their own words.

What comes next:

This ranking was earned by listening to contractors, and that's exactly how JobNimbus plans to keep it. JobNimbus is staying close to the field, through direct customer feedback, a robust partner ecosystem, and the community of roofing businesses who use JobNimbus every day, to make sure what they build next actually reflects what customers, and the roofing industry as a whole, needs.

JobNimbus thanks current customers for their continued trust, and for the reviews that made this ranking possible. If you're evaluating roofing solutions, see why over 8,000 contractors already choose JobNimbus.

About JobNimbus

JobNimbus is the #1 AI-enabled CRM for roofing and exterior contractors, purpose-built to support businesses from their first million to their next hundred, without the chaos. By connecting every stage of the job lifecycle, from getting found and winning work, to managing production, collecting payment, and driving referrals, JobNimbus replaces the fragmented stacks that hold growing contractors back. As the recognized #1 leader on G2 in Roofing Software and a 4.8-star app rating, it's no wonder why over 8,000 contractors trust JobNimbus to grow their business every day. One system. Full visibility. Total control. Learn more at jobnimbus.com.

About G2

G2 is the world's largest and most trusted software marketplace. More than 90 million people annually use G2 to make smarter software decisions based on authentic peer reviews.
