

ASAP Semiconductor Announces Strengthened Support for RTX Corporation with Supplier Approval

California-based aerospace parts distributor ASAP Semiconductor reveals its approval as a supplier for RTX Corporation, promising reliable fulfillment support.

ANAHEIM, CA, UNITED STATES, August 4, 2026 /EINPresswire.com/ -- The California-based parts distributor ASAP Semiconductor revealed today that it has been approved to be a supplier for [RTX Corporation](#), marking another milestone in the distributor's standing goal of deepening the level of collaborative support it provides for

leading aerospace and defense organizations. Drawing upon an extensive supply network and a robust, data-driven procurement system, ASAP Semiconductor has established its ability to provide its partners dependable supply chain solutions that address the complex regulatory requirements and tight operational schedules typical of these industries. With the newly

ASAP Semiconductor is proud to have a strengthened relationship with RTX Corporation as a supplier, reflecting our shared commitment to supporting the aerospace and defense supply chain.”

Joe Faruqui, CEO of ASAP Semiconductor

established status as a supplier of RTX, the distributor states that it looks forward to fostering a long-term business relationship that is built upon a drive for dependable, customer-first service.

An Overview of RTX Corporation

Headquartered in Arlington, Virginia, RTX Corporation stands as one of the world's largest aerospace and defense conglomerates, formed through the historic merger of Raytheon Company and United Technologies Corporation. RTX primarily operates through a number of business segments that it has established through acquisitions and

mergers, with Collins Aerospace, Pratt & Whitney, and Raytheon being some of the most recognized. Through these segments, the corporation designs and manufactures a wide array of advanced defense systems, [commercial avionics](#), military engines, cybersecurity solutions, and cutting-edge radar technologies. This massive product portfolio is sought after by many industries and organizations, with entities ranging from commercial air carriers and manufacturers to international defense ministries and government agencies making up much of RTX's global customer base. To execute and maintain large-scale initiatives and basic operations, major industry leaders like RTX Corporation frequently leverage the services of independent suppliers and distributors like ASAP Semiconductor to secure necessary parts, mitigate potential inventory shortages, and streamline logistics. This is especially important as quickly rising geopolitical developments and global supply-chain pressures introduce new challenges to component availability and delivery timelines.

The Role and Capabilities of ASAP Semiconductor

With over 15 years of experience in supporting major air carriers, aerospace manufacturers, defense contractors, Fortune 500 companies, and government organizations with parts fulfillment services, ASAP Semiconductor has built itself up as a partner for global part distribution and project management solutions. Sourcing its inventory from a vetted network of manufacturers and executing stocking strategies in accordance with careful data analysis, the company aims to connect professionals across industries with timely access to quality-assured product options spanning from factory-new to obsolete status. Furthermore, ASAP Semiconductor maintains its dedication to uncovering and supplying options for [difficult-to-locate parts](#) and obsolete products, seeking to provide a shield against market volatility and scheduling setbacks.

Recognizing the rising procurement challenges currently faced by aerospace and defense organizations across the globe in the face of rising global conflict and continued supply chain issues, the company has heavily invested in expanding its data-driven sourcing measures and strengthening industry relationships for increased product options across its purchasing platforms. These continued efforts, paired with a longstanding commitment to responsive customer support and dependable execution, have contributed to the company's growing relationships with premier manufacturers and defense organizations alike. ASAP Semiconductor states that this approval as a supplier for RTX Corporation builds upon those longstanding efforts, reflecting the trust established through years of dependable service and a continued focus on supporting customers with tailored procurement solutions.

"By leveraging our procurement expertise and adherence to rigorous quality standards, we look forward to providing RTX with dependable fulfillment and strategic support that drives long-term operational success."

Expanding Industry Collaboration and Partnerships

As global aerospace and defense professionals continue to experience shifting operational

demands and navigate market volatility, having access to dependable procurement channels has become an important concern for many. In recognition of this, ASAP Semiconductor is moving forward with its dedication to serving American interests through an initiative of expanding its network of partnerships and collaborative business relationships. In recent weeks, the distributor has also been approved by several other recognized manufacturers and industry organizations, stating that these collective milestones reinforce its ongoing mission to deliver consistent value and uncompromised quality across every level of supply chain execution, with more announcements to come as further developments occur.

About ASAP Semiconductor

Established in 2009, ASAP Semiconductor is a global distributor specializing in aerospace, aviation, defense, marine, electronic, industrial, and IT hardware components. Serving a diverse customer base that includes U.S. Government departments and agencies, Fortune 100 companies, major air carriers, original equipment manufacturers, and repair stations, the company is recognized for its expansive inventory, rigorous quality assurance practices, and commitment to efficient procurement solutions.
