

House Party Introduces Turnkey Photo Booth and Special-Effects Packages for Destination Weddings in Spain

Barcelona-based House Party combines photo booths and technician-operated special effects for destination weddings across Spain: Barcelona, Valencia, Alicante.

BARCELONA, SPAIN, August 11, 2026 /EINPresswire.com/ -- [House Party](#), a

Barcelona-based event-services company, has introduced a set of turnkey photo booth and special-effects packages for destination

weddings in Spain. The packages bring planning, transport, setup, on-site operation and packdown under one provider, with coordination available in English and Spanish.

“

The new package structure is designed to simplify planning for couples organizing a wedding from abroad while keeping every service professionally operated on site.”

Max Boyko, House Party representative

Designed for couples planning from outside Spain as well as local couples hosting guests from abroad, the packages combine House Party's [photo booth rental](#) service with selected wedding effects. Availability extends from Barcelona and Catalonia to Valencia, Alicante, Girona, Zaragoza and other Spanish destinations, subject to date, venue and technical requirements.

The photo booth component includes a handcrafted wooden booth, a DSLR camera, studio lighting, unlimited prints during the booked service period, personalized print design, props, a backdrop and a guest album. Digital

copies are delivered within 48 hours. A House Party operator remains on site throughout the service and manages setup and packdown.

Couples can add low fog for the first dance, cold sparks for entrances, dances or cake cutting, a professional laser effect for suitable indoor venues, and colour smoke for outdoor celebrations.

Each effect is operated by House Party personnel. Final configurations are based on venue conditions, indoor or outdoor use, ceiling height, event schedule and applicable safety requirements.

The packages are structured around three planning needs. The Photo Booth Package focuses on guest entertainment and printed keepsakes. The First Dance Effects Package combines selected visual effects for a coordinated entrance or first dance. The Full Destination Wedding Package brings the photo booth and chosen effects into a single production plan, including transport, setup schedules and on-site technicians.

House Party said the launch formalizes a service model developed through work at weddings and events in Spain and abroad. The company reports more than 500 events completed and 15 years of experience. Its recent projects include weddings in Barcelona, Valencia and Girona, as well as events involving international couples and guests.

Pricing is provided by quote because travel, venue access, service duration, the number of effects and technical requirements vary by event. The final production plan is confirmed after the venue, schedule and selected services have been reviewed.

The company recommends confirming a venue's operating restrictions before finalizing any package that includes laser, haze, smoke or spark effects. House Party coordinates technical details with the venue and, where relevant, with the wedding planner, photographer and videographer.

[About House Party](#)

House Party is an event-services company based at Carrer d'Herrero, 20, 08902 L'Hospitalet de Llobregat, Barcelona, Spain. It provides photo booth and special-effects services for weddings, corporate events and private celebrations. Services include photo booths, low fog, colour smoke, laser effects and cold sparks, with transport, setup, operation and packdown handled by the company's team. The company serves Barcelona and Catalonia and accepts projects in other parts of Spain subject to availability.
