CLEARWATER, FL, UNITED STATES, August 11, 2026 /EINPresswire.com/ -- MindCloud today announced that it has been ranked No. 351 on the 2026 Inc. 5000, Inc. magazine's annual list of the fastest-growing private companies in America. The company also ranked No. 31 among software companies.

The list is the most prestigious ranking of the nation's most successful independent and entrepreneurial businesses, recognizing companies that have achieved remarkable growth while driving innovation, creating jobs, and shaping the future of the economy. Past honorees include companies such as Microsoft, Meta, Chobani, Oracle, and Patagonia. MindCloud will be listed as one of the top 500 in the Fall issue of Inc. Magazine

"Ranking No. 351 on the Inc. 5000—and No. 31 among software companies—is an incredible milestone for MindCloud," said Jamie Royce, CEO of MindCloud. "It reflects the trust our customers place in us and the talent and dedication of our team. We're proud of what we've built, but we see this as a starting point. Our focus remains on helping businesses put complex work on autopilot—and building the app layer that makes the next generation of AI-powered work possible."

Its technology supports more than 3,100 applications and 73,850 actions, forming a broad and deeply integrated app layer for managed integrations, self-service automation, a Universal API, and AI-powered work.

This year's Inc. 5000 recognizes a new class of companies redefining what growth looks like. From AI and advanced manufacturing to healthcare, consumer products, and professional services, these businesses are expanding their impact, creating jobs and proving that entrepreneurial ambition continues to fuel the U.S. economy. Among the 5,000 companies on the list, the median three-year revenue growth rate was 130%, and those companies have collectively added more than 627,208 jobs to the U.S. economy over the past three years.
