

Media Credentialing Now Open for the 50th Geothermal Rising Conference

From AI-Powered Exploration to Enhanced Geothermal Systems, the Biggest Stories in Geothermal Will Be Unveiled in Houston

HOUSTON, TX, UNITED STATES, August 7, 2026 /EINPresswire.com/ -- Media credentialing is now open for the 50th Geothermal Rising Conference (GRC 2026), taking place September 20–23, 2026, in Houston, Texas.

GEOTHERMAL RISING

Celebrating its 50th edition, the Geothermal Rising Conference brings together leaders from across the geothermal industry, energy sector, government, academia, finance, manufacturing, and technology to explore the innovations, policies, and partnerships accelerating geothermal energy worldwide.

Hosted in the Energy Capital of the World, GRC 2026 will showcase how geothermal is advancing as a reliable, around-the-clock energy resource while creating new opportunities through technology transfer, advanced drilling, subsurface innovation, industrial heat, and grid resilience.

Accredited media will have access to:

Full conference credentials

A dedicated on-site media center with daily media briefings

Interview opportunities and support with industry innovators, researchers and policymakers

Technical sessions, keynote presentations, and the exhibit hall

Please Note: Media Credentialing will close on September 1, 2026.

Throughout the conference, journalists will have the opportunity to explore the technological, economic, and policy developments shaping one of the world's fastest-evolving clean energy sectors.

"The 50th Geothermal Rising Conference comes at an important moment for our industry. Geothermal is gaining unprecedented attention as governments, utilities, investors, and

technology leaders look for reliable, resilient, bipartisan energy solutions. Hosting GRC in Houston creates a unique opportunity to highlight the convergence of traditional energy expertise and geothermal innovation while connecting journalists directly with the people driving that progress."

— Brandy Brazell Obvintsev, Director of Communications, Geothermal Rising

About Geothermal Rising

Geothermal Rising brings people together to accelerate geothermal for a resilient energy future. We are the global nonprofit association dedicated to advancing geothermal energy through education, advocacy, collaboration, and professional development. Our annual conference is the industry's premier gathering, convening professionals from around the world to share research, technologies, best practices, and market developments that are leading geothermal deployment. For additional information about the conference, visit www.geothermal.org.
