

# Valentina Capozzoli-Hadland Expands Regenerative Aesthetic Medicine Collaborations

*Face Body Plus, Inc. integrates advanced therapies with longevity-focused care and hormone optimization in Florida and New York.*

JACKSONVILLE, FL, UNITED STATES, August 27, 2026 /EINPresswire.com/ -- Valentina Capozzoli-Hadland, MSN, AGPCNP-C, AAMEP, an advanced practice nurse practitioner and founder of Face Body Plus, Inc., is expanding her focus on regenerative aesthetic medicine through new collaborations in Jacksonville, Florida, and the New York tri-state area. These initiatives aim to integrate aesthetic treatments with longevity-focused care and hormone optimization, moving beyond traditional med spa concepts to emphasize the medical benefits of advanced therapies.

With two decades of experience, Valentina established Face Body Plus, Inc. in Jacksonville, Florida, serving clients across Northern Florida and the New York tri-state area. Her career journey has progressed from pediatric orthopedics to leadership roles, culminating in a dedication to medical aesthetics grounded in comprehensive patient care. Valentina is also a nationally recognized educator, providing training to medical professionals in the administration of neurotoxins, fillers, PRP, PRF, and PDO threads. Her approach centers on treating the whole patient, considering lifestyle, medications, and long-term aging goals for natural outcomes.

In Jacksonville, Valentina will be collaborating with Dr. Andrea Trescot, a board-certified pain physician, and Dr. Vanessa Wilczak, a chiropractic neurologist, at East Coast Elite Care. Concurrently, she will work in New York with Dr. Sarah Schwartz, a board-certified OB-GYN. These collaborations are designed to enhance patient well-being by combining aesthetic treatments with critical health components, including peptide therapies. This strategic expansion

aims to advance aesthetic and anti-aging medicine by supporting overall health. Additionally, Valentina is developing a new application to provide guidance and resources for new practices and individuals within the aesthetics industry.

"Integrating aesthetic treatments with comprehensive longevity care and hormone optimization marks a significant step forward," said Valentina Capozzoli-Hadland. "Our goal is to provide patients with holistic care that supports their overall health and well-being, moving beyond surface-level aesthetics to address deeper physiological needs."
