Clutch powers how businesses discover, evaluate, and hire the right B2B service partners. The Clutch Global Awards honor the very best firms based on verified client reviews, market presence, and demonstrated expertise. This summer, only the top 15 companies in each IT and development category earned this distinction, making it one of the most selective recognitions in the industry.

"The pace of innovation in IT and software development continues to accelerate, and these firms are setting the standard through the results they deliver for clients," said Mike Beares, Founder and CEO of Clutch. "A Clutch Global Award is earned through exceptional service and the

voices of real customers."
