

JSOC IT Opens Houston Office, Expands 24/7 Security Operations Center Coverage

New Houston office strengthens JSOC IT's security assurance platform and 24/7 SOC monitoring for businesses across Texas and the Gulf Coast.

HOUSTON, TX, UNITED STATES, August 5, 2026 /EINPresswire.com/ -- [JSOC IT](#) today announced the official opening of its new office in Houston, Texas, expanding the company's footprint and strengthening delivery of its [security assurance platform](#) and 24/7 Security Operations Center (SOC) services to businesses across the region.

The ion Houston

The Houston office marks a significant milestone in JSOC IT's growth and reflects rising demand for continuous, around-the-clock cybersecurity monitoring. Through its [24/7 SOC](#), JSOC IT provides real-time threat detection, incident response, and continuous monitoring — ensuring client environments are protected every hour of every day, not just during business hours.

“

Cyber threats don't keep business hours, and neither do we. Our new Houston office puts us closer to clients while our 24/7 SOC keeps them protected around the clock.”

Tawfiq Momin

At the core of JSOC IT's offering is its security assurance platform, which gives organizations ongoing visibility into their security posture, compliance readiness, vulnerability management, and risk reporting. Combined with 24/7 SOC coverage, the platform delivers enterprise-grade protection for small to mid-sized businesses with strict

regulatory and cyber security requirements, without the usual enterprise-level complexity or cost.

"Cyber threats don't keep business hours, and neither do we," said Tawfiq Momin. "Our new Houston office puts our team closer to our clients while our 24/7 SOC and security assurance

platform keep them protected around the clock. This expansion is about being there for Texas businesses — in person and in real time."

Houston's position as a major hub for energy, healthcare, and logistics makes it a natural fit for JSOC IT's expansion, as these industries face some of the most persistent and sophisticated cyber threats in the country.

The Houston office is located at 4201 Main Street in Houston Texas and is now fully operational. To learn more about JSOC IT's security assurance platform and 24/7 SOC services, visit <https://www.jsocit.com/> or contact JSOC IT at sales@jsocit.com.

About JSOC IT
