

Zima Automotive Joins the Motorist Assurance Program for Honest Repairs

Zima Automotive is now a Motorist Assurance Program shop, following nationally recognized standards for honest inspections and transparent repairs.

SPRINGFIELD, OH, UNITED STATES, September 3, 2026 /EINPresswire.com/ -- [Zima Automotive](#) Joins the Motorist Assurance Program for Honest Repairs

SPRINGFIELD, OH - Sept 2026 - Zima Automotive is now a Motorist Assurance Program (MAP) shop. This means the team is part of a nationwide group of repair facilities committed to consistent, transparent inspection and communication standards for every customer.

Administered by the nonprofit

Automotive Maintenance and Repair Association, MAP was created to close the trust gap between drivers and repair shops. Participating facilities agree to follow the program's Uniform Inspection and Communication Standards and provide written estimates. They must also clearly distinguish between repairs that are genuinely required and those that are simply suggested. This helps customers understand what their vehicle needs, why the work is recommended, and what to expect before any repairs begin.

For Zima Automotive, the designation puts an industry name to an approach the shop has practiced since opening in 2014. Its [auto repair services](#) already rely on digital vehicle inspections and plain-language explanations for domestic, Asian, and European vehicles. MAP participation adds an independent, industry-backed framework to that process. Every repair continues to be supported by the shop's 3-year/36,000-mile warranty.

Drivers can look for the MAP Participating Facility designation as a signal that a shop adheres to recognized industry standards. They can also expect honest, consistent guidance whether they

visit for routine maintenance or a major repair.

A Message From the Owner

"Being a MAP shop puts a name to how we've always worked; honest inspections, clear recommendations, and no surprises for our customers. People should never leave a shop wondering whether they actually needed the work. This keeps us accountable to that standard." Max Zima, owner of Zima Automotive

About Zima Automotive
