RENO, NV, UNITED STATES, August 6, 2026 /EINPresswire.com/ -- In sync with back-to-school, Author, [Asset Protection Attorney](#), and Dog Lover Ted Sutton, Esq., unleashes new "[Greenback's Book of Law](#): Everything You Need to Know – As Taught by a Friendly Dog!" (SuccessDNA, Inc.). Through storytelling, parents, teens and young adults will find this unique fiction book an entertaining and educational way to learn law basics never taught in school.

Asset Protection Attorney, Partner, Author and Dog Lover Ted Sutton Esq wrote 'Greenback's Book of Law' to teach real-world legal concepts through the lens of a friendly dog named Greenback.

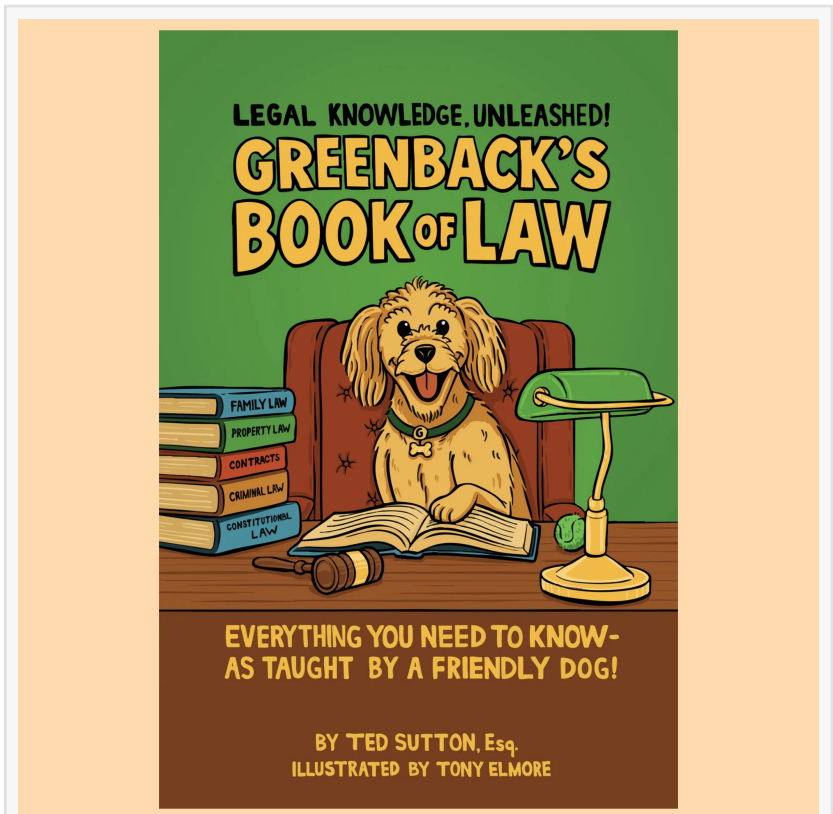

As the school year kicks-off for millions of students, Sutton emphasizes, "Whether you're a homeschooling parent looking for a practical civics resource, or you simply want your children to receive a real-world education that many schools don't provide, 'Greenback's Book of Law' is the perfect addition to your curriculum. Because someday every child will sign a contract, own property, and vote in an election. And shouldn't they understand the rules before they get there?"

Sutton adds, "Over the next several months, your kids will learn math, science, history, and English. But here's a question. Will they learn anything about civics, voting, or how our legal system works? For most students, the answer is no, which is why I wrote 'Greenback's Book of Law'. There's really no other comprehensive resource out there that simplifies the law in a way that everyone can understand."

"Greenback's Book of Law" is written primarily for 12-18 year-olds, young adults and/or anyone

who wants to know how to stay out of trouble with the law. This easy-to-read book includes illustrations and a priceless cover by Tony Elmore. Readers can learn how to save time, money and avoid legal consequences that can negatively impact lives for years. Sutton includes chapters that cover eight different areas of the law, including" Family Law, Property Law, Contracts, Torts, The Bill of Rights, Voting, Civics and Criminal Law. Each chapter includes relatable stories to connect everything together.

And unlike a traditional textbook, this new book is told through the eyes of a friendly Goldendoodle named Greenback versus a boring attorney. Simply by sitting in his owner Ernie the Attorney's office all day, Greenback shares relatable and easy-to-understand stories about Ernie the Attorney's clients, making it way more interesting to learn than most classes.
