

SRI to relocate Silicon Valley headquarters to its PARC campus

This space made history. The innovation continues.

MENLO PARK, CA, UNITED STATES, August 6, 2026 /EINPresswire.com/ -- [SRI](#) will relocate its headquarters to its Palo Alto-based PARC campus, bringing its Silicon Valley teams and labs together in the historic space where modern computing was invented. The move, which coincides with SRI's 80th anniversary, will include refurbishment and modernization to equip the campus for groundbreaking research for years to come.

“Bringing our Silicon Valley teams together in this space is an exciting step for SRI,” said David Parekh, CEO of SRI. “In 2023, we acquired PARC, and now, with this exciting move, we are combining expertise across quantum, biosciences, education, AI, robotics, and more in one place. This campus will also serve as the hub for our innovation network of startups and international collaborations.”

“

In 2023, we acquired PARC, and now, with this exciting move, we are combining expertise across quantum, biosciences, education, AI, robotics, and more in one place.”

David Parekh

The move marks the next chapter for SRI, whose Menlo Park campus has served as its home since 1947. Over its 80-year history, SRI staff working on this campus pioneered the internet, the computer mouse, mobile robotics, and a host of other world-changing innovations that many people depend on today.

SRI is making tremendous advancements in trusted AI, quantum sensing, and personalized medicine, and is catalyzing global ecosystems, including QED-C, NSIC, QMEC, and the Silicon Valley-based DARPA Accelerator.

Carved into a hillside in the heart of [Stanford Research Park](#), PARC was built in 1974 for scientists

to think, invent, and build. That legacy continues.

About SRI

An independent nonprofit R&D institute, SRI has an 80-year history of delivering impactful technology used by billions every day. SRI creates and delivers world-changing solutions for a safer and healthier future. From AI to quantum, SRI has a proven track record of delivering deep technology innovation to the real world. Headquartered in Silicon Valley, SRI has offices across the United States and in Japan. Learn more at www.sri.com.
