

Restaurantji Launches Commission-Free Reservation Platform for Independent Restaurants

New booking platform lets independent restaurants accept direct reservations for a flat monthly fee with no per-booking commissions.

COLUMBIA, SC, UNITED STATES, August 6, 2026 /EINPresswire.com/ --

[Restaurantji](#), the dining discovery platform reaching over 2 million monthly visitors, today announced the official launch of [Restaurantji Reservations](#). The new commission-free booking system helps independent restaurants and local restaurant groups accept direct online reservations for a flat monthly rate starting at \$35 per month, eliminating traditional per-cover and per-booking fees.

Restaurant reservation platform

Restaurantji Reservations equips restaurant operators with a unified direct booking link that can be shared across all digital channels, including restaurant websites, Instagram, Facebook, email campaigns, SMS, QR codes, local advertisements, and Restaurantji listings. The platform consolidates incoming reservations into a real-time management dashboard featuring a live floor view, waitlist management, walk-in tracking, and table status updates.

“Most reservation platforms charge a fee on every guest or every booking, meaning a restaurant pays more as it grows and fills more tables,” said Elijah Puzhakov, Chief Communications Officer at Restaurantji. “We designed Restaurantji Reservations with predictable pricing so independent operators keep the revenue they earn and capture direct bookings from the places guests already find them.”

To help operators reduce no-shows and manage floor operations, the platform includes automated SMS confirmations, post-visit review requests, and options for deposits or

prepayments. Restaurant owners also gain access to marketing analytics to track which channels generate the highest volume of booked tables.

Key features of Restaurantji Reservations include:

- Flat-Rate Pricing: Plans start at \$35 per month with zero per-cover or per-booking commissions.
- Multi-Channel Direct Links: A single shareable link converts traffic from social media, websites, ads, and Restaurantji listings into confirmed bookings.
- Unified Management Dashboard: Real-time floor view managing reservations, walk-ins, waitlists, and table turnover.
- No-Show Prevention Tools: Automated SMS reminders, post-dining review triggers, and optional deposit or prepayment capabilities.
- Enhanced Discovery Placement: Participating restaurants earn elevated visibility on Restaurantji listings.

Setup takes approximately 30 minutes, and every plan includes a 14-day free trial. Restaurants can start with core reservation features and add POS integration, menu management, payments, and detailed analytics as they scale.
