

# HDTV Supply Introduces WolfPack 1080p 12x28 HDMI Over IP Matrix Switcher with Real-Time iPad Video Preview

*WolfPack 1080p 12x28 HDMI Over IP Matrix Switcher with Real-Time iPad Video Preview*

CA, UNITED STATES, August 6, 2026 /EINPresswire.com/ -- HDTV Supply, a leading manufacturer and distributor of professional audio/video equipment, is pleased to announce the [WolfPack 1080p 12x28 HDMI Over IP Matrix Switcher](#) with Real-Time iPad Video Preview, a professional AV-over-IP solution designed for flexible HDMI distribution, centralized management, and real-time visual monitoring.

Supporting up to 12 HDMI sources and 28 HDMI displays, the system enables users to distribute Full HD video across a standard Gigabit Ethernet network while providing real-time video preview on an iPad for fast, intuitive source switching and system management.

Designed for sports bars, digital signage networks, command centers, universities, retail environments, and corporate AV installations, the WolfPack 12x28 Matrix delivers scalable, high-performance HDMI distribution with simplified operation.

"The WolfPack 12x28 HDMI Over IP Matrix combines scalable AV distribution with real-time visual control," said a spokesperson for HDTV Supply. "The built-in iPad video preview allows operators to instantly identify, monitor, and switch sources, making AV management faster and more efficient."

Professional HDMI Distribution Over IP

The WolfPack Matrix uses standard Gigabit LAN infrastructure to distribute 1080p HDMI video over IP, eliminating traditional distance limitations while simplifying installation. The system is ideal for facilities that require flexible routing between multiple sources and displays without complex wiring. Its real-time iPad preview interface provides operators with live thumbnails of connected video sources, allowing instant switching and centralized management from a single mobile device.

### Key Features

Supports 12 HDMI inputs and 28 HDMI outputs

1080p HDMI over IP distribution via Gigabit Ethernet

Real-time iPad video preview for visual source monitoring

Flexible matrix switching between any source and display

Scalable architecture for future expansion

Easy management through tablet interface

Reliable Full HD video transmission

Commercial-grade design for continuous operation

### Applications

The WolfPack 1080p 12x28 HDMI Over IP Matrix Switcher is ideal for:

Sports bars and restaurants

Corporate boardrooms

Universities and training centers

Command and control centers

Digital signage networks

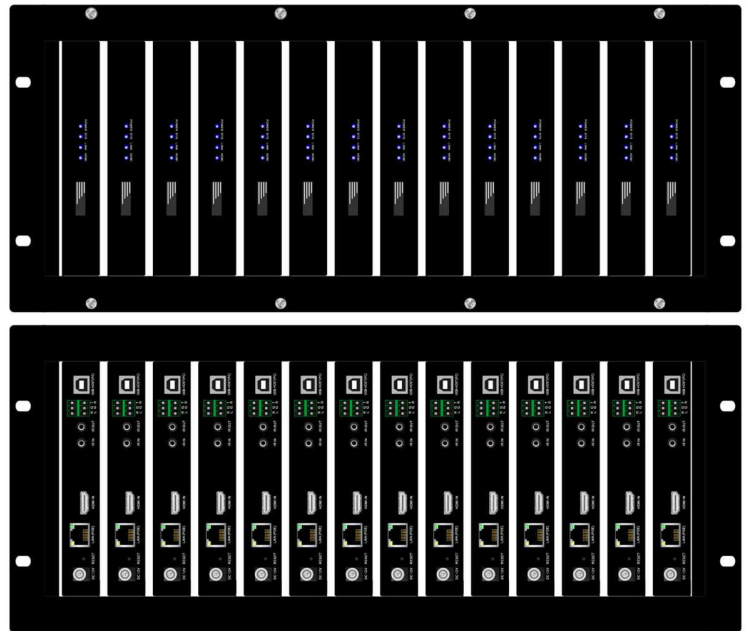

Retail environments

Hospitality venues

Broadcast facilities

Houses of worship

Entertainment venues

iPad Real Time Video Preview of Sources

The spokesperson answered these questions:

Q1: What is the WolfPack 12x28 HDMI Over IP Matrix Switcher?

A: It is a professional AV-over-IP system that allows up to 12 HDMI sources to be routed to as many as 28 displays over a standard Gigabit network.

Q2: What is the benefit of the real-time iPad video preview?

A: Operators can view live thumbnails of all video sources on an iPad, making source selection and switching faster and more accurate.

Q3: Why use HDMI over IP instead of traditional cabling?

A: HDMI over IP enables long-distance video distribution using standard network infrastructure, making installations more flexible and easier to expand.

Q4: Where is this system commonly used?

A: It is ideal for sports bars, corporate offices, universities, digital signage networks, command centers, retail stores, hotels, and entertainment venues.

Q5: Can the system be expanded in the future?

A: Yes. Its scalable AV-over-IP architecture allows additional transmitters and receivers to be added as system requirements grow.
