

Intelligent Audit's Kaitlyn Fisher and Margaret Sanford Named Recipients of the 2026 Women in Supply Chain Forum™ Award

Food Logistics and Supply & Demand Chain Executive recognize two Intelligent Audit leaders for their contributions to the supply chain industry

ROCHELLE PARK, NJ, UNITED STATES, August 18, 2026 /EINPresswire.com/ -- Intelligent Audit, a global leader in freight audit and payment, parcel audit and recovery, transportation spend management, logistics intelligence, and AI-powered optimization, today

announced that Kaitlyn Fisher, Director of Implementation, and Margaret Sanford, Strategic Data Programs Manager, have been named recipients of the [2026 Women in Supply Chain Forum™ Award](#), presented by Food Logistics and Supply & Demand Chain Executive.

“

Awards are wonderful, but what stands out most is the impact they've had on our customers, our team, and our business. This recognition is a reflection of that.”

Hannah Testani, CEO at Intelligent Audit

The annual awards recognize female supply chain leaders and executives whose accomplishments, mentorship, and leadership help shape the future of the supply chain industry.

Kaitlyn Fisher, Director of Implementation, was recognized in the Trailblazers category, which honors established leaders whose accomplishments, leadership, and mentorship continue to shape the supply chain industry.

Fisher leads Intelligent Audit's implementation team, helping global shippers successfully deploy Intelligent Audit's freight audit, parcel audit, and transportation spend management solutions. She works closely with customers to seamlessly integrate Intelligent Audit's solutions into their operations without disruption and accelerate their time to value. Under her implementation leadership, organizations build a strong foundation for long-term success by improving

transportation visibility, strengthening financial controls, and ensuring customers get the most from their logistics technology investments.

Those implementations set the stage for measurable business outcomes. Across its customer base, Intelligent Audit has helped organizations [uncover millions in transportation savings](#), improve billing accuracy, strengthen carrier accountability, and gain greater visibility into transportation performance through freight audit, transportation spend management, and logistics intelligence.

Margaret Sanford, Strategic Data Programs Manager, was named a recipient in the Rising Stars category, which recognizes emerging leaders making a meaningful impact on the future of the supply chain industry.

Sanford leads several high-impact initiatives at the intersection of data science, product execution, operations, and customer value. Her work helps strengthen the data foundation that powers DeepDetectAI™, Intelligent Audit's award-winning anomaly detection platform built to [identify hidden transportation costs](#), improve carrier accountability, and turn complex shipping data into actionable insights. Sanford's work supports the innovation behind those capabilities and the continued evolution of Intelligent Audit's AI software.

"I'm incredibly proud to see Kaitlyn and Margaret recognized," said Hannah Testani, Chief Executive Officer at Intelligent Audit. "They've each built a reputation for leading with confidence,

Kaitlyn Fisher
Director of implementation

Margaret Sanford
Strategic Data Programs Manager

supporting the people around them, and raising the bar in everything they do. Awards are wonderful, but what stands out most is the impact they've had on our customers, our team, and our business. This recognition is a reflection of that."

Recipients will be recognized at the 2026 Women in Supply Chain Forum™, taking place November 17–19, 2026, in Charleston, South Carolina. The complete list of winners is available on the Food Logistics and Supply & Demand Chain Executive websites.
