

OmniRx Health Tops 10,000 Subscribers, Expands Virtual Primary Care to 44 States

Kansas City-based telehealth provider OmniRx Health surpasses 10,000 subscribers as its virtual primary care platform grows to 44 licensed states

KANSAS CITY, MISSOURI, UNITED STATES, August 16, 2026

/EINPresswire.com/ -- [OmniRx Health](#), a Kansas City-based [telehealth](#)

[provider](#), has surpassed 10,000 subscribers and expanded its virtual primary care platform to 44 licensed states — up from 41 states announced in late 2025 — marking a period of sustained growth for the 100% [online healthcare](#) service.

OmniRx Health — virtual primary care for more than 10,000 subscribers

“

Expanding to 44 states means more Americans can reach a board-certified provider in minutes — no waiting rooms, no insurance hurdles, and no gaps in follow-up care”

OmniRx Health

The milestone follows the company's November 2025 expansion of virtual primary care services and its 2025 report examining patient demand for specialized telehealth services. As demand for convenient, affordable care continues to rise nationwide, OmniRx Health has focused on removing the barriers that keep patients from seeing a provider: wait times, geography, and insurance complexity.

Through the OmniRx Health platform, patients complete an initial consultation with a board-certified provider — the company's clinical team averages more than 15 years of experience — and receive a personalized treatment plan. Prescriptions are filled through FDA-regulated pharmacies and delivered with free, discreet shipping, typically arriving within 2 to 3 days. Subscribers can chat with a provider 24/7 and receive ongoing monthly check-ins as part of their care.

The company's care model requires no insurance. Transparent pricing with no hidden fees and no long-term commitments has made the platform an accessible option for patients in both major markets — including Texas, Florida, California, New York, and Illinois — and in communities where access to primary care remains limited.

WILLIAMS BUSINESS TECHNOLOGIES Inc. is a business services firm dedicated to unlocking the

potential of businesses across North America. The company provides a suite of reliable services, including strategic consulting, digital marketing, software development and financial management, to help organizations navigate market trends and achieve sustainable growth.
