

From Startup to Global Player: SCR Celebrates 25 Years

Energy Staffing Firm Successfully Recruits Contractors and Direct Hires for Process Energy Industries in the U.S. and Around the World

TULSA, OK, UNITED STATES, August 6, 2026 /EINPresswire.com/ -- Strategic Contract Resources, LLC (SCR), a Tulsa-based energy staffing firm, marks its 25th anniversary this month. Founded in August 2001 in Canton, Georgia and now headquartered in Tulsa and Acworth, Georgia, SCR has successfully recruited [contractors and direct hires](#) for specialized positions across [process energy industries](#) around the globe for the past quarter of a century.

From its humble beginnings with three employees in the back of a feed store in Canton to its present-day client roster of leading international companies, SCR has delivered talent over the past 25 years to 31 U.S. states and 27 countries around the world.

Jerry Robinson, SCR's General Manager and Managing Partner since 2003, maintains that the firm's "people-first" philosophy has provided a competitive edge. "Our ability to network with industry contacts through staff we've worked with and placed over the years has allowed us to focus on long-term relationships," Robinson said.

Vice President J. Kent Hudson agrees, adding "while certain recruiting methods may have changed since SCR began in 2001, the basic principles still hold true: form trusted relationships, know your industry, and find clients who value people."

The past 25 years have posed various challenges, including navigating the 2008 financial crisis and subsequent recession and the COVID-19 global pandemic, but SCR has consistently placed candidates in long-term contractor and direct hire roles. Some nested employees have been with SCR since 2005.

While certain recruiting methods may have changed since SCR began in 2001, the basic principles still hold true: form trusted relationships, know your industry, and find clients who value people. "

J. Kent Hudson

"I'm proud that we've kept our core values while growing, creating real opportunities for multitudes of individuals and building lasting trust with our clients and teammates," Robinson said. "Our philosophy is to put the right people in the right places and then get out of their way."

As SCR looks ahead to the next 25 years and beyond, Hudson is optimistic about the firm's future. "Technological innovations may simplify the [recruiting and placement](#) process even more down the road, but technology can never replace what has made SCR successful from the

beginning – developing and nurturing relationships with candidates and clients. If we continue our relationship-driven approach and take care of our people, the sky's the limit," he said.

Strategic Contract Resources, LLC (SCR) is an international staffing and recruiting firm focused on connecting highly skilled talent with process energy project roles on a contract or direct hire basis. SCR serves industries including alternative energy; power; water and wastewater; construction and infrastructure; manufacturing; oil, gas, and petrochemicals; life sciences; pipelines; and process heating.
