

Pn Automation Announces Formation of Strategic Advisory Board

Distinguished Leaders from the U.S. Military, Federal Government, and Industry Join Pn Automation to Accelerate Innovation and Strategic Growth

BALTIMORE, MD, UNITED STATES, August 6, 2026 /EINPresswire.com/ -- Pn Automation, Inc., a rapidly growing federal technology company specializing in artificial intelligence, software engineering, cybersecurity, digital transformation, and enterprise modernization, today announced the formation of its Strategic [Advisory Board](#).

The newly established Board brings together accomplished leaders from the U.S. military, federal government, Fortune 500 technology companies, and the defense industry to provide strategic guidance as Pn Automation continues expanding its capabilities and supporting mission-critical programs across the Department of Defense, civilian agencies, and the federal healthcare sector.

“

Our Strategic Advisory Board represents an extraordinary combination of military leadership, federal executive experience, technology innovation, and business strategy, strengthening our capabilities.”

Nitin Baviskar

The Strategic Advisory Board will advise the executive leadership team on corporate strategy, market expansion, technology innovation, mergers and acquisitions, executive leadership, and long-term growth initiatives while strengthening relationships across the federal marketplace.

Leadership That Reflects Our Mission

Pn Automation's Strategic Advisory Board includes nationally recognized leaders whose careers span military command, federal executive leadership, enterprise

technology, cybersecurity, defense modernization, healthcare IT, and strategic business growth.

Lieutenant General (Ret.) Anthony "Tony" Hale

Former senior U.S. Army executive and global operations leader with more than three decades of experience directing intelligence, enterprise risk, security, and large-scale organizational transformation supporting over 800,000 military and civilian personnel.

Colonel (Ret.) Trent Upton

Chief Growth Officer of Pn Automation and retired U.S. Army Colonel with extensive experience leading complex military operations, national security initiatives, technology adoption, and strategic growth across the federal market.

Deon Viergutz

Former Vice President at Lockheed Martin responsible for a \$1 billion portfolio spanning electronic warfare, cybersecurity, intelligence systems, and information operations. He brings deep expertise in defense technology, enterprise risk, and government contracting strategy.

A Milestone in Pn Automation's Growth

"As Pn Automation continues to grow, it is essential that we surround ourselves with leaders who have successfully navigated complex organizations, transformative technologies, and national missions," said [Nitin Baviskar](#), President and Chief Executive Officer of Pn Automation.

Our Strategic Advisory Board represents an extraordinary combination of military leadership, federal executive experience, technology innovation, and business strategy. Their guidance will help us strengthen our capabilities, expand our market presence, and continue delivering innovative solutions that support our customers' most important missions.

The formation of the Strategic Advisory Board reflects Pn Automation's long-term commitment to disciplined growth, innovation, and operational excellence. The Board will provide strategic counsel across key focus areas, including:

Artificial Intelligence and Machine Learning

Defense and National Security

Federal Healthcare Technology

Enterprise Digital Transformation

Cybersecurity and Information Assurance

Government Contracting and Capture Strategy

Strategic Partnerships and Corporate Development

Executive Leadership and Governance

As Pn Automation continues to expand its portfolio of advanced technology solutions—including AI, software engineering, RFID-enabled asset visibility, cloud engineering, systems integration, cybersecurity, and enterprise modernization—the Strategic Advisory Board will play an integral role in shaping the company's future direction.

About Pn Automation

Pn Automation, Inc. is a federal technology company delivering innovative solutions that help government agencies modernize operations, improve mission readiness, and accelerate digital

transformation. The company's core capabilities include artificial intelligence, software engineering, enterprise integration, cybersecurity, cloud engineering, RFID-enabled asset visibility, data analytics, and program management. Pn Automation serves customers across the Department of Defense, civilian agencies, and the federal healthcare community through multiple government-wide acquisition contracts and strategic partnerships.
