

Shores Automotive Updates Factory Porsche Diagnostic Software in Boca Raton

Shores Automotive has updated its factory Porsche diagnostic software, giving Boca Raton owners dealer-level PIWIS scanning without the dealership.

BOCA RATON, FL, UNITED STATES,
August 10, 2026 /EINPresswire.com/ --
[Shores Automotive](#) Updates Factory
Porsche Diagnostic Software to Deliver
Dealer-Level Scanning in Boca Raton

BOCA RATON, FL - Shores Automotive is a premium European and exotic auto repair shop in Boca Raton. The shop has updated its factory Porsche diagnostic software, expanding dealer-level scanning capability for Porsche owners across Palm Beach County. The update keeps the shop's factory PIWIS system current with the module-

level diagnostics used throughout the Porsche service network. The software supports 911, Cayenne, Macan, Panamera, and Boxster models. It allows technicians to read live vehicle data, identify intermittent faults, and confirm the source of cooling, fuel, suspension, and drivability concerns before repairs begin.

The investment reinforces the company's position as a dealer-alternative for owners who want factory-level capability without a trip to the franchised dealership. Additional information is available on the company's page for [Porsche Repair and Service in Boca Raton, FL](#).

Shores Automotive has served European and exotic vehicle owners in Boca Raton since 2012. Qualifying repairs are backed by a 3-year/36,000-mile nationwide warranty. OEM or OE-equivalent parts are standard on every repair, and the shop maintains a 4.9 Google rating from customers across Palm Beach County. Loaner cars, valet pickup and drop-off, early drop-off, and after-hours pickup are also available.

The update arrives ahead of the region's seasonal service demand. Each winter, Porsche owners return to South Florida after extended highway travel or vehicle storage, and the area's climate

places added strain on turbocharged cooling systems. Current diagnostic software supports faster, more accurate service throughout the busy season.

A Message From the Owner

"Porsche owners shouldn't have to choose between dealer-level diagnostics and a shop that actually treats them right," said Billy Craven, owner of Shores Automotive. "With our updated factory PIWIS software, they get the same depth the dealership works from, along with the communication, loaner cars, and personal service we're known for here in Boca."

About Shores Automotive
