

Wired2Lead Launches AI Executive Team to Help Small Businesses Build Freedom, Scale Growth and Increase Profitability

New AI-powered platform gives small businesses access to an executive team that helps build systems, grow profits, and create more freedom.

CINCINNATI, OH, UNITED STATES, August 7, 2026 /EINPresswire.com/ -- [AI.Wired2Lead](https://www.AIWired2Lead.com) today announced the launch of its AI Executive Team, a business growth platform designed to give small business owners access to an entire executive leadership team—without the cost of hiring one.

Unlike traditional AI chat tools that simply answer questions, AI.Wired2Lead provides business owners with a team of specialized AI executives who work together to help improve operations, strengthen leadership, increase profitability, and build businesses that are less dependent on the owner.

“

Our mission is to give every small business owner access to executive-level guidance that helps them build systems, grow profitably, and create more freedom.”

Troy Lum

At the center of the platform is the [Business Freedom Score™](#), a proprietary assessment that helps business owners measure how dependent their company is on them across key areas such as leadership, operations, finance, sales, marketing, people, technology, and customer experience. Users receive personalized recommendations and step-by-step action plans to improve the areas that have the greatest impact on long-term business freedom.

The platform also includes the [Business Growth Accelerator™](#), an intelligence engine that helps business owners identify opportunities to improve systems, eliminate bottlenecks, increase efficiency, and accelerate profitable growth.

The screenshot displays the AI.Wired2Lead platform interface. At the top, it says "AI.WIRED2LEAD BUSINESS STRATEGIES" and "INTRODUCING THE AI EXECUTIVE TEAM". Below this, it states "Your AI-Powered Leadership Team. Real Guidance. Real Growth. Real Freedom." The interface features a grid of five AI executives: CEO (Strategy & Leadership), COO (Operations & Systems), CFO (Finance & Profitability), CMO (Marketing & Growth), and CSO (Sales & Revenue Growth). To the right, a laptop displays the "Business Freedom Score™" of 72 (out of 100) and a "Business Growth Accelerator™" section showing 12 observations, a \$245K potential annual impact, 8 systems to improve, and a "High" growth rating. The bottom of the interface lists four key benefits: ONE GOAL (Build a business that gives you more freedom), SMARTER DECISIONS (AI executives analyze your business and recommend what matters most), BETTER SYSTEMS (Get custom playbooks, resources, and action plans), and BIGGER RESULTS (Improve operations, increase profits, and scale with confidence). The tagline at the bottom is "BUILD BETTER SYSTEMS. SCALE PROFITABLY. CREATE BUSINESS FREEDOM."

An Entire Executive Team Available
24/7

Subscribers gain access to a team of AI executives, each specializing in a different area of business, including:

Chief Executive Officer
Chief Operating Officer
Chief Financial Officer
Chief Marketing Officer
Chief Sales Officer
Chief People Officer
Customer Experience Executive
Technology and AI Specialists
Legal and Compliance Advisors
Additional business specialists

Each executive can create implementation plans, generate business resources, recommend systems, and collaborate with other executives to provide strategic guidance tailored to the user's business.

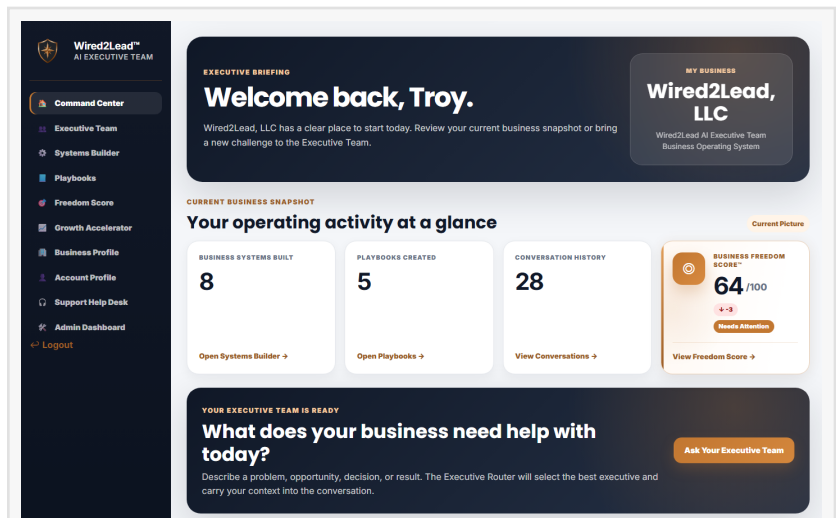

Built for Action, Not Just Advice

AI.Wired2Lead is designed to help business owners move beyond conversations and into execution.

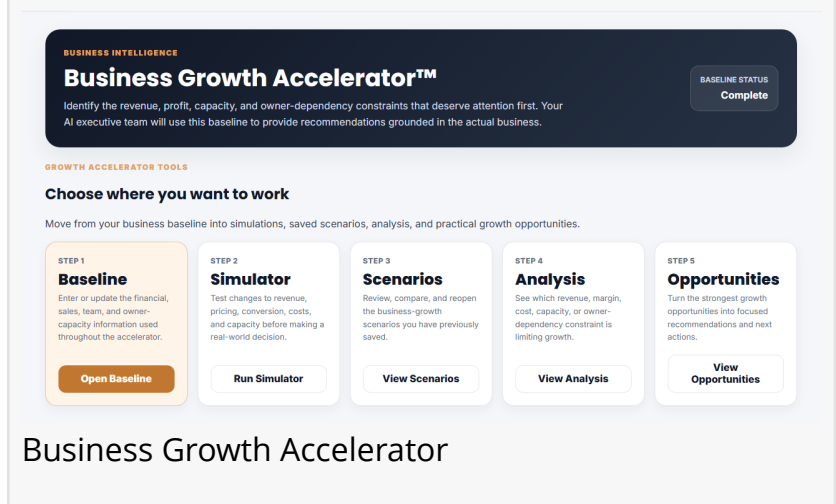

The platform enables users to:

Build complete business systems
Create customized playbooks and operating procedures
Develop implementation plans with actionable tasks
Generate business documents and resources
Track progress toward greater business freedom
Build a company that can grow with less owner involvement

Every recommendation is designed to help business owners spend less time working in the business and more time working on it.

Your Business Command Center

Business Growth Accelerator

Designed Specifically for Small Businesses

Many small business owners cannot justify hiring an executive leadership team, leaving them to make important decisions without specialized expertise.

AI.Wired2Lead was created to close that gap by making executive-level strategic guidance accessible and affordable for entrepreneurs, startups, and growing businesses.

"Our mission is simple," said Troy Lum, Founder of Wired2Lead. "We want every small business owner to have access to the same level of strategic thinking that larger companies receive from experienced executive teams. AI.Wired2Lead gives business owners practical guidance they can implement immediately while helping them build a business that creates more freedom."

Availability

AI.Wired2Lead is available immediately through subscription plans designed for growing businesses.

Business owners can learn more, calculate their Business Freedom Score, or begin a free trial by visiting:
