SAFO AI Investment S.L. Expands European Operations with Barcelona Headquarters

The new headquarters will focus on AI, digital transformation and strategic investment

BARCELONA, SPAIN, August 8, 2026 /EINPresswire.com/ -- SAFO AI Investment S.L., a Barcelona-based investment and strategic advisory company, today announced the expansion of its European operations following the completion of its corporate establishment in Spain. The company will focus on artificial intelligence, digital transformation, cross-border investment, and business advisory services for companies seeking growth opportunities across Europe, the Middle East, and Asia.

> Our objective is to build a company that connects businesses, investors, and emerging technologies while creating long-term value through strategic partnerships and responsible investment.”

The expansion marks an important milestone in SAFO AI Investment's long-term strategy to build a European platform that connects innovation, entrepreneurship, and international capital. Operating from Barcelona, the company intends to work with startups, established businesses, family offices, and institutional partners on technology adoption, operational transformation, market entry strategies, and strategic investments.

Spain has emerged as one of Europe's most attractive destinations for innovation-driven businesses, supported by a growing technology ecosystem, international talent, and increasing investment in artificial intelligence. SAFO AI Investment aims to contribute to this ecosystem by providing strategic expertise while facilitating collaboration between European and international businesses.

The company plans to concentrate on several key areas, including artificial intelligence implementation, business process optimization, investment advisory, corporate strategy, international expansion, mergers and acquisitions support, and technology-enabled business transformation. By combining commercial experience with long-term investment thinking, SAFO AI Investment seeks to help organizations improve operational efficiency and identify sustainable growth opportunities.

"Barcelona provides an exceptional environment for innovation, entrepreneurship, and international collaboration," said Dr. Sakib M Rahman, Chief Business Officer of SAFO AI Investment S.L. "Our objective is to build a company that connects businesses, investors, and emerging technologies while creating long-term value through strategic partnerships and responsible investment."

Dr. Sakib M Rahman, Chief Business Officer

The company will also explore opportunities to collaborate with universities, innovation hubs, startup accelerators, and business organizations to encourage knowledge sharing and support the development of emerging technology ventures.

SAFO AI Investment forms part of the broader SAFO business group, an international organization with operations spanning retail, media, marketing, wellness, and investment activities across multiple jurisdictions. The establishment of the Spanish entity represents the group's continued international expansion and reinforces its commitment to developing a stronger presence within the European market.

Looking ahead, the company plans to expand its professional network across Spain and other European markets, strengthen relationships with international investors, and participate in initiatives that promote innovation, entrepreneurship, and responsible business growth.
