

ASAP Semiconductor Approved as a Supplier for Parker Meggitt's North Hollywood Manufacturing Facility

California-based distributor ASAP Semiconductor announces its approval as a parts supplier for Parker Meggitt's North Hollywood manufacturing facility.

ANAHEIM, CA, UNITED STATES, August 7, 2026 /EINPresswire.com/ -- The California-based aerospace, defense, and electronic parts distributor [ASAP Semiconductor](#) announced today that it has been approved as a supplier for [Parker Meggitt](#)'s North Hollywood manufacturing facility, marking another significant development in the distributor's ongoing efforts to reinforce domestic manufacturing capabilities and protect national interests through unwavering supply chain support. As the two organizations strengthen their business relationship, ASAP Semiconductor attests that it will remain fully dedicated to providing the Parker Meggitt facility with streamlined sourcing options that target routine and pressing needs alike.

ASAP Semiconductor Approved as a Supplier for Parker Meggitt's North Hollywood Manufacturing Facility

Our goal is to build upon this opportunity with consistent service, responsive communication, and procurement support that encourages a lasting business partnership."

Joe Faruqui, CEO of ASAP Semiconductor

An Overview of Parker Meggitt in North Hollywood

Parker Meggitt is a well-regarded organization that currently operates under the umbrella of Parker Hannifin Corporation, having been acquired by the parent company in 2022 in an initiative to expand its Fluid Systems Division (FSD) with flow control equipment and pneumatic valve technologies. The company's North Hollywood facility presently plays an important role within the broader organization, executing the design and production of various aerospace valves, fluid system components,

actuators, controls, and other specialized components. This portfolio supports a range of aerospace, defense, and energy applications, with major [aviation manufacturers](#) and military defense programs alike commonly seeking out solutions that trace back to the facility. As Parker Meggitt's North Hollywood facility carries out production and executes various projects, the organization will often make use of its approved network of suppliers and distributors to address inventory needs.

The Role and Capabilities of ASAP Semiconductor

With over 15 years of experience in supporting major air carriers, aerospace manufacturers, defense contractors, Fortune 500 companies, and U.S. government departments and agencies alike, ASAP Semiconductor has built itself up as a globally serving partner for streamlined parts distribution and hands-on project management solutions. To tackle the needs of this diverse customer base, the distributor actively maintains an expansive selection of quality-assured stock options sourced from Original Equipment Manufacturers (OEMs) and vetted vendors. With major tenets of service centered around the extent of inventory options, speed of fulfillment, and the ability to provide targeted procurement support for obsolete items and common supply-chain complexities, ASAP Semiconductor actively seeks to establish the standing and capability necessary to meet the demands of aerospace and defense professionals across the globe.

In recognition that supporting organizations with specialized manufacturing requirements tends to require more than broad inventory availability alone, ASAP Semiconductor attests that it has been continually investing in the development of more advanced, data-driven procurement capabilities that emphasize a strong concern for traceability, regulatory compliance, and timely delivery. Through these ongoing investments, the distributor seeks to strengthen its ability to support customers with sourcing opportunities for in-demand and legacy products alike, mitigating the risks commonly posed by global trade instability and resource scarcity. Leveraging these capabilities, ASAP Semiconductor promises unwavering support for Parker Meggitt.

"We are pleased to strengthen our relationship with Parker Meggitt's North Hollywood facility and support its specialized manufacturing requirements," stated Joe Faruqui, CEO of ASAP Semiconductor. "Our goal is to build upon this opportunity with consistent service, responsive communication, and procurement support that encourages a lasting business partnership."

Expanding Industry Collaboration and Partnerships

ASAP Semiconductor states that it looks forward to working with Parker Meggitt in support of its varied needs, the distributor being proud to further its ongoing mission of close support for American manufacturers and defense organizations facing difficult sourcing conditions, limited availability, or other external pressures. The approval from Parker Meggitt's North Hollywood facility also coincides with a broader expansion of ASAP Semiconductor's standing across the aerospace and defense landscape, with other notable organizations and manufacturers having extended similar recognition to the distributor in recent weeks. Building upon this momentum, ASAP Semiconductor attests that it will further its efforts in cultivating an increasingly connected

network of industry relationships, with a focus set on strengthening core services and creating new opportunities for dependable fulfillment solutions.

About ASAP Semiconductor

Established in 2009, ASAP Semiconductor is a global distributor specializing in aerospace, aviation, defense, marine, electronic, industrial, and IT hardware components. Serving a diverse customer base that includes U.S. Government departments and agencies, Fortune 100 companies, major air carriers, original equipment manufacturers, and repair stations, the company is recognized for its expansive inventory, rigorous quality assurance practices, and commitment to efficient procurement solutions.
