

# Thailand Opens Virtual Gateway for Global Buyers at Bangkok RHVAC 2026 and Bangkok E&E 2026 Online Edition

*Bangkok RHVAC 2026 and Bangkok E&E 2026 Online Edition will connect international buyers with Thai exhibitors from 24 to 28 August 2026.*

BANGKOK, THAILAND, August 7, 2026 /EINPresswire.com/ -- [The Department of International Trade Promotion \(DITP\)](#), Ministry of Commerce, Thailand, in collaboration with the Air Conditioning and Refrigeration Industry Club and the Electrical and Electronics Industry Club of the Federation of Thai Industries, will host [Bangkok RHVAC 2026 and Bangkok E&E 2026 Online Edition](#) from 24 to 28 August 2026 under the theme “Virtual Gateway to RHVAC and E&E Solutions.”

The online edition is designed as a trusted sourcing platform for international buyers seeking refrigeration, heating, ventilation, air-conditioning, electrical and electronics solutions from Thailand. It will bring together Thai exhibitors, enabling buyers, importers, and sourcing teams to explore products, compare suppliers and connect with potential business partners through a convenient online platform.

Bangkok RHVAC 2026 and Bangkok E&E 2026 Online Edition

Bangkok RHVAC 2026 and Bangkok E&E 2026 Online Edition

Thailand is well positioned to serve this demand through its strong manufacturing base, export capability and established industrial supply chains. As one of the world's key electronics manufacturing bases, Thailand ranks 14th globally in electronic equipment production and is recognized as the world's second-largest exporter of hard disk drives (HDDs) and third-largest exporter of air-conditioners. These rankings underscore the country's manufacturing strength, international quality standards and readiness to support global sourcing needs across RHVAC and E&E industries.

Bangkok RHVAC 2026 and Bangkok E&E 2026 Online Edition

Bangkok RHVAC 2026 and Bangkok E&E 2026 Online Edition will offer two main online functions: a virtual exhibition and online business matching.

The virtual exhibition will allow visitors to explore company profiles, product information from Thai exhibitors across two main segments: RHVAC and Electrical & Electronics. RHVAC categories include air-conditioning unit & system, refrigeration, ventilation and heating, tools & instrument and equipment parts & materials, and other related products. Electrical & Electronics categories cover home appliances, audio and visual appliances, industrial and power supply products, parts and accessories, IT and office automation, lighting and equipment, and other related services.

For buyers who are ready to move beyond product discovery, the online business matching function will enable registered participants to connect directly with selected Thai companies, request further information and explore potential business cooperation. This function is designed to help international buyers identify suitable suppliers more efficiently and begin business discussions through a focused online channel.

Thailand's trade environment also adds to its appeal as a sourcing base. According to Thailand's FTA status update as of April 2026, Thailand has multiple free trade agreements in force through ASEAN frameworks and bilateral arrangements with key markets including China, Japan, South Korea, India, Australia and New Zealand, as well as the Regional Comprehensive Economic Partnership (RCEP). Thailand has also signed agreements with EFTA, Sri Lanka and Bhutan, while negotiations with partners such as the European Union, South Korea, Canada and the United Arab Emirates continue to progress.

For international buyers, this trade network can support Thailand's position as a strategic sourcing partner in Asia. Actual tariff benefits depend on product category, customs classification and rules of origin, but Thailand's active trade policy direction reflects the country's

commitment to international trade and supply chain connectivity.

Bangkok RHVAC 2026 and Bangkok E&E 2026 Online Edition serves as a practical virtual gateway for global buyers to explore Thailand's RHVAC and E&E capabilities, compare suppliers and start business discussions with Thai companies ready for international markets.

International buyers, importers and sourcing teams are invited to join the virtual exhibition and online business matching from 24 to 28 August 2026.
