

GenZone Brings Dubai Business Setup and US LLC Formation Under One Platform

The world's first all-in-one platform for both Dubai company formation and US LLC setup, one login to launch, track, and run everything from a single dashboard.

DUBAI, UNITED ARAB EMIRATES, August 7, 2026 /EINPresswire.com/ -- GenZone, the market leader in Dubai business setup and US LLC formation, trusted by 3,000+ entrepreneurs worldwide, has announced the world's first all-in-one platform for both Dubai business setup and US LLC formation. Called the [GenZone LaunchPad](#), the platform offers a single login to launch and run their business structures across two jurisdictions, Dubai and the US, and manage it all from a single dashboard.

The GenZone Platform dashboard, where founders track their Dubai company formation, residency, visas, and live financials from a single login.

“

We've long delivered seamless Dubai setup and the fastest US LLC formation, and now we're taking that to the next level, a platform where clients onboard and manage everything end to end.”

Shayan Nasiri, Co-Founder

For years, setting up a business in Dubai, relocating to the UAE, or [forming a US LLC as a non-resident](#) has meant stitching together a patchwork of different services, such as immigration consultants, lawyers, PRO agents, banks, accountants, and tax advisors, with no clear view of where anything stands.

The GenZone Platform replaces that maze with a guided application, one login, and a single dashboard. Founders complete a single onboarding flow, whether they are forming a Dubai company, a Wyoming or Delaware LLC, or both, and the same platform becomes a real-time view of

their formation, banking, residency, and financials.

The platform is not a lead form or a checklist; it is a complete operating system for globally mobile entrepreneurs. The advanced platform is the result of GenZone's years of experience in

offering premium, white-glove business setup and relocation services to clients across the world. Backed by a boutique team of highly skilled professionals, GenZone continues to be second to none in every area it has served since its inception.

Dubai Business Setup, Tracked from Name to Trade License

As Dubai's leading [business setup and relocation consultancy](#), GenZone puts its entire formation expertise inside the Platform, so founders can track every stage of their UAE company setup, from name to trade license, live in one dashboard.

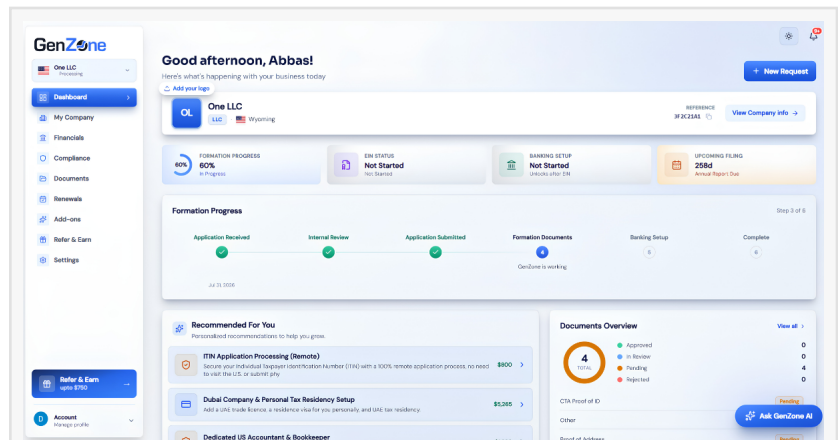

A six-step guided application covers company name options, applicant and shareholding details, business activity, role assignments, residency visas, and document uploads, all encrypted and autosaved. Once submitted, the platform keeps filing readiness, formation progress, residency and visa status, profit and loss, and balance sheet current in real time, so nothing falls through the cracks.

Whether founders are pursuing a company setup, a UAE Golden Visa, or long-term residency for their family, every moving part stays organized and transparent, all inside Dubai's 0% personal income tax environment, a major attraction for entrepreneurs escaping tax rates above 40-50% in Canada, the UK, the EU, and Australia.

Dubai Tax, Accounting, and Compliance, Handled

Setup is only the start. GenZone's UAE tax and accounting team keeps clients compliant long after the trade license is issued, and the Platform brings it all together in one place. Corporate tax registration and filing, VAT where applicable, bookkeeping, and annual compliance deadlines are tracked live, with renewal reminders so licenses and filings never lapse.

Founders see profit and loss, balance sheet, and residency status update automatically, and real

The same GenZone Platform tracks US LLC formation, from EIN registration and banking approvals to filing deadlines and the full company profile.

GenZone co-founders Kevin McKenzie and Shayan Nasiri at the company's headquarters in Business Bay, Dubai.

advisors are on call whenever a question comes up. For entrepreneurs used to chasing separate accountants and PROs, having formation, tax, and compliance in a dashboard is the difference between running a business and constantly firefighting one.

US LLC Formation

On the US side, GenZone is a go-to US LLC formation provider for non-residents worldwide. Founders who need US payment processing, banking, and a credible American entity can form a Wyoming or Delaware LLC from the same Platform, starting at \$499 per year with no US residency required.

A short onboarding flow covers state and company name, package and payment, personal and business details, ownership for Corporate Transparency Act compliance, and electronic signature. From there the Platform tracks EIN registration, banking approvals, filing deadlines, and the complete company profile, the moment the application is submitted.

US Banking, EIN, ITIN, and Bookkeeping

Where most providers stop at the certificate, GenZone carries the client all the way to a working business. The team has issued over 600 ITINs and routinely secures US business bank accounts and access to processors like Stripe and PayPal for non-resident founders, the exact hurdles that usually derail an international entrepreneur.

Ongoing US bookkeeping and compliance are handled too, so the LLC stays in good standing year after year. Inside the Platform, EIN status, banking approvals, and filing deadlines sit alongside a full financial workspace, meaning a founder in any of 50+ countries can run a legitimate US company without ever setting foot in the US.

One Platform, Two Powerful Pathways, Real People Behind It

Beyond formation, the GenZone Platform becomes the company's live financial workspace, tracking revenue, net income, cash balance, transactions, profit and loss, balance sheet, and cash flow automatically. Compliance, banking, and filing status update in real time, and real advisors are available on call and on WhatsApp, with a concierge response in under five minutes. Existing clients can log in to manage their companies, track renewals, stay ahead of deadlines, and access every document in one place, without chasing anyone.

"We've always delivered an exceptional experience for our clients," said Kevin McKenzie, Co-Founder, GenZone. "The GenZone Platform represents everything we've perfected operationally, brought together in a way that gives clients transparency, control, and confidence they deserve throughout the entire process, and well beyond."

"This is a one-of-a-kind client platform for both Dubai setup and US LLC formation," said Shayan

Nasiri, Co-Founder, GenZone. "We've long delivered seamless Dubai setup and the fastest US LLC formation, and now we're taking that to the next level, a full-fledged platform where clients can onboard themselves and manage everything end to end."
