

Cosmetic Skin & Laser Center earns national injectable treatment distinctions

Recognition from Allergan Aesthetics and Galderma reflects extensive experience with Botox Cosmetic, Dysport, Sculptra and Restylane treatments

PETOSKEY, MI, UNITED STATES, August 10, 2026 /EINPresswire.com/ -- Cosmetic Skin & Laser Center (CSLC) has received five national and statewide distinctions from Allergan Aesthetics and Galderma for its experience with Botox Cosmetic, Dysport, Sculptra and Restylane treatments.

 COSMETIC SKIN & LASER CENTER

The aesthetic provider team at CSLC's Northern Michigan locations

Allergan Aesthetics recognized CSLC as a [Top 50 Botox Cosmetic provider in the nation](#). Galderma recognized the practice as a Top 20 Dysport provider in the nation, Michigan's No. 1 Sculptra provider, a Top 10 Sculptra provider in the nation, and Top 15 Restylane Kysse provider in the nation.

The distinctions reflect treatment volume and account activity. CSLC views them as evidence of the breadth of clinical experience its providers bring to consultations and treatment planning.

"These rankings reflect more than volume," said [Courtney Lo, PA](#), founder and CEO of Cosmetic Skin & Laser Center. "They reflect decades of caring for people with different features, goals, and expectations. That depth of experience allows us to personalize treatment more thoughtfully, always keeping the long-term goal in mind: timeless results that still look like you."

Founded in Petoskey in 2001, CSLC has built its approach around Guided Aesthetic Care, a consult-first philosophy focused on individualized planning and natural-looking results. Each consultation begins with the patient's anatomy, concerns, goals and long-term vision before a provider recommends a procedure or product.

As injectable treatments have become more widely available, patients have more choices in

where and how they receive care. CSLC says that makes provider experience, training and clinical judgment especially important. Facial movement, skin quality, structure and aging patterns vary from person to person. Broad treatment experience can help providers recognize those differences, anticipate how results may evolve and build plans that support balance and natural expression.

Every aesthetic provider at CSLC also completes advanced education through CSLC University, the practice's in-house training and certification program. Training covers facial anatomy, consultation skills, injection technique, patient safety, treatment planning and ongoing clinical development.

"Botox, Dysport, Sculptra and Restylane are tools," Lo said. "The real value comes from the judgment behind the recommendation and the conversation that happens before treatment."

Current recognitions

- Top 50 Botox Cosmetic provider in the nation, Allergan Aesthetics
- Top 20 Dysport provider in the nation, Galderma
- Michigan's No. 1 Sculptra provider, Galderma
- Top 10 Sculptra provider in the nation, Galderma
