

MCE Expands Fluid Handling Portfolio Through Partnership with ARO® Fluid Management

MCE and ARO® Fluid Management partner to offer diaphragm pumps, parts, and accessories across MCE's network.

ZELIENOPLE, PA, UNITED STATES, August 7, 2026 /EINPresswire.com/ -- Motion & Control Enterprises (MCE) today announced a new partnership with ARO® Fluid Management, an Ingersoll Rand business. Through this partnership, MCE will offer in-stock PRO and Compact Series diaphragm pumps, replacement parts, repair kits, and accessories at competitive pricing across its nationwide network of locations.

"ARO's reputation for reliability and performance makes them an excellent addition to our fluid handling portfolio," Joel Scipio, Vice President and General Manager of MCE's Rotating Equipment Group. "This partnership allows us to provide customers with faster access to industry-leading ARO pump solutions backed by local inventory, technical expertise, and lifecycle support."

Why This Matters for Customers

- Extensive on-hand inventory: MCE offers a complete line of [ARO® PRO and Compact Series pumps](#), including and non-metallic models available in a variety of sizes and material configurations. MCE can also assist with replacement pumps, genuine ARO® parts, repair kits, and accessories.
- Expert technical support: MCE helps customers evaluate the entire fluid-handling application, not just the pump. Our specialists can recommend the appropriate ARO® pump or replacement and assist with selecting the supporting components required for installation, operation, and maintenance.
- Comprehensive lifecycle service: MCE can provide genuine ARO® parts and repair kits, along with complementary products such as valves, hose and fittings, air preparation equipment, filtration, instrumentation, controls, motors, drives, and power transmission products. By sourcing these solutions through a single partner, customers can simplify procurement, improve compatibility, and reduce supplier coordination.

About ARO® Fluid Management
