“

A good limousine service is the starting point of every festival experience for all stars and guests of the ZFF. That is why we are pleased to have found the right premium partner with Limos4.”

Christian Jungen, CEO, Zurich Film Festival

The two organizations have directly integrated their systems, allowing changes made in the festival's guest management platform to flow into dispatch without manual re-entry. When flights are delayed, green-carpet appearances run longer than planned, or guests are added to engagements at short notice, both teams will work from the same up-to-date information.

Throughout the festival, Limos4 will provide live monitoring, on-site coordination, and contingency capacity

from a dedicated control desk, while delivering daily operational reports to the ZFF team.

"A good limousine service is the starting point of every festival experience for all stars and guests of the ZFF. That is why we are pleased to have found the right premium partner with Limos4," said Christian Jungen, CEO of the Zurich Film Festival. "We are very much looking forward to working with the team of Vojkan Tasic, who share our entrepreneurial mindset."

"As Limos4 grew, I watched ZFF become one of Europe's most distinctive cultural events. To stand alongside the festival now as an official partner carries particular meaning for me and is a proud reflection of what our team has made possible," said Dr. Vojkan Tasic, Founder and CEO of Limos4.

The partnership reflects Limos4's broader event transportation model, which combines pre-event planning, live operational oversight, on-site coordination, backup capacity, and post-service reporting with proprietary technology and 24/7 in-house support.
