

Brabazon Launches Rebuilt Brabazon.com; 45+ Years of Compressed Air, Vacuum, and Pump Expertise at Customers' Fingertips

Brabazon launches a rebuilt website with 24/7 emergency support, free engineering tools, product guides, and faster access to local experts.

GREEN BAY, WI, UNITED STATES, August 7, 2026 /EINPresswire.com/ -- [Brabazon Pump, Compressor & Vacuum](https://www.Brabazon.com) has launched a comprehensively rebuilt brabazon.com, turning the family-owned company's website into a full self-service resource for industrial air, vacuum, and pump customers across the Midwest.

Brabazon Handshake

Family owned since 1978 and an authorized Sullair dealer since 1984, Brabazon serves more than 8,000 customers from seven branch locations covering 14 markets across Wisconsin, Minnesota, Illinois, Michigan, and Missouri. That work is backed by 7,500+ active service agreements and a 24/7 emergency line (800.825.3222) with an average emergency response under two hours.

“

We built the new brabazon.com the way we run our service department: answer the question fast, show the math, and make it easy to reach a real person at the nearest branch.”

Chris Heine

The new site brings that capability online:

- Dedicated pages for every industry and brand Brabazon serves, from food and beverage to mining, plus in-depth guides for compressors, vacuum pumps, blowers, and industrial pumps
- A dedicated 24/7 emergency repair hub explaining exactly what happens when a plant calls with equipment down
- The Brabazon Toolbox: 17 free engineering calculators for

sizing, energy cost, leak cost, downtime cost, and more, built by Brabazon engineers with no signup required

- Interactive tools throughout, including an equipment-match quiz, a rental vs. downtime cost

comparison, and quote requests that route automatically to the visitor's nearest branch

"Our customers don't have time to dig through a brochure site when a compressor is down or a project needs sizing numbers," said Chris Heine, Marketing Manager at Brabazon. "We built the new brabazon.com the way we run our service department: answer the question fast, show the math, and make it easy to reach a real person at the nearest branch. The Toolbox calculators alone put engineering resources online that used to require a phone call."

The redesign reflects Brabazon's prevention-first approach to compressed air, vacuum, and pump systems: helping plants find problems before they find them, whether that means a leak cost estimate from a free calculator or a certified technician on site within hours.

The new site is live now at www.brabazon.com.

About Brabazon Pump, Compressor & Vacuum

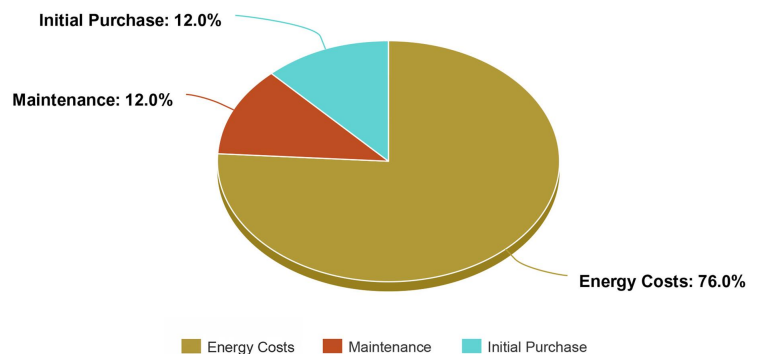

Founded in Green Bay, Wisconsin in 1978, Brabazon Pump, Compressor & Vacuum is a family-owned distributor and service provider of industrial air compressors, dryers, pumps, blowers, and vacuum systems.
