

TX Sparks Construction Celebrates the Completion of Lexington Square with Ribbon-Cutting Ceremony

The 41,560-square-foot commercial development creates new opportunities for businesses and supports continued economic growth in Frisco, Texas

FRISCO, TX, UNITED STATES, August 11, 2026 /EINPresswire.com/ -- [TX Sparks Construction](#) proudly celebrated the official completion of [Lexington Square](#), a 41,560-square-foot commercial development in Frisco, Texas, with a special ribbon-cutting ceremony attended by community leaders, clients, project partners, friends and family.

The logo for TX Sparks Construction. It features the letters 'TX' in a large, bold, sans-serif font. To the right of 'TX' is a stylized graphic of a building facade with three vertical lines and a series of horizontal lines representing windows. To the right of this graphic is the word 'SPARKS' in a large, bold, sans-serif font. Below 'SPARKS' is the word 'CONSTRUCTION' in a smaller, bold, sans-serif font.

Technology-Driven Construction for the Modern World

The event marked the successful transformation of an ambitious vision into a completed commercial development designed to create new spaces and opportunities for businesses in one of Texas' fastest-growing communities.

“

Lexington Square is a proud milestone that reflects our commitment to quality, collaboration and building spaces that create lasting value for businesses and communities across Texas.”

Ravi Polishetty, Founder of Tx Spark Construction

Lexington Square represents months of detailed planning, city permits, design coordination, construction management, inspections, problem-solving and collaboration among numerous professionals. From the project's earliest concepts through final execution, the development was made possible by a shared commitment to quality, teamwork and long-term community value.

SuperConstruct Supported Efficient and Timely Project Delivery

Throughout the development of Lexington Square, TX Sparks Construction leveraged SuperConstruct, an advanced construction project management platform, to strengthen

coordination, communication and project visibility.

By centralizing project documentation, daily progress updates, RFIs, submittals, inspections, cost information and team communication, SuperConstruct helped the project team stay aligned throughout every phase of construction. The platform enabled faster information sharing, improved accountability and supported the timely resolution of project-related challenges.

This technology-driven approach provided the team with greater control and visibility, helping maintain schedule discipline, streamline decision-making and support the successful, on-time completion of Lexington Square.

TX Sparks Construction was honored to welcome Mayor Mark Hill as the Chief Guest. His presence made the celebration especially meaningful and highlighted the importance of continued commercial development and business growth within the Frisco community.

The company also expressed its sincere appreciation to the Frisco Chamber of Commerce for supporting the ribbon-cutting ceremony and bringing together local business and community representatives.

The completion of Lexington Square represents more than the delivery of a commercial property. It marks the beginning of a new chapter for the businesses that will operate within the development and contribute to the continued growth of the surrounding

community.

TX Sparks Construction extends its heartfelt gratitude to its clients, project partners, vendors, consultants, friends, family members and community supporters who attended the ceremony and contributed to the successful completion of the project.

This milestone further strengthens TX Sparks Construction commitment to delivering innovative and dependable commercial construction, design-build and development solutions across Texas. The company will continue combining construction expertise, strong partnerships and modern technology to build spaces that support businesses and strengthen communities.

About TX Sparks Construction

TX Sparks Construction provides comprehensive commercial construction and development services throughout Texas. Its capabilities include commercial ground-up construction, interior build-outs, design-build services, land development, feasibility analysis, entitlement support, permitting coordination and end-to-end construction management.

Through strategic planning, disciplined project execution and collaborative partnerships, TX Sparks Construction transforms commercial development concepts into high-quality, functional spaces that support businesses and communities.

About SuperConstruct

[SuperConstruct is an AI-powered construction project management platform](#) designed to help contractors, developers, project teams and stakeholders manage construction operations more efficiently. The platform uses AI to improve project visibility, support faster decision-making, identify potential issues and streamline critical workflows. It centralizes project communication, documentation, daily logs, RFIs, submittals, inspections, cost tracking, Schedules of Values (SOVs), Schedules of Costs (SOCs) and other essential construction processes. By bringing project data and workflows into one intelligent platform, SuperConstruct helps teams improve coordination, accountability, cost control and overall project execution.
