

Quality Mold Solutions Launches Mold Inspection Company in Maitland, FL

Licensed, inspection-only mold assessment now serving Maitland homeowners with unbiased, lab-backed results.

MAITLAND, FL, UNITED STATES, August 13, 2026 /EINPresswire.com/ -- [Quality Mold Solutions](#), a Florida-licensed mold assessment and testing firm based in Orlando, has expanded its certified inspection services to Maitland homeowners and property managers.

The announcement reflects growing demand across Central Florida for independent, lab-verified indoor air quality assessments amid the region's persistent humidity and seasonal moisture challenges.

Mold Inspection Company in Maitland, FL

Maitland's mix of lakeside properties and older tree-canopied neighborhoods, including areas near Lake Sybelia, Dommerich, and the Packing District, creates conditions where trapped humidity and hidden moisture can develop into mold growth long before homeowners notice visible signs. Central Florida's humid subtropical climate, combined with frequent summer storms, keeps indoor moisture levels elevated for much of the year, making routine inspection and early detection especially valuable for homeowners in this market.

Residents seeking a [mold inspection company in Maitland, FL](#) can now schedule a full assessment that includes HVAC system evaluation, hygrometer-based humidity measurement, thermal imaging, and both invasive and non-invasive moisture mapping. Under Florida Statute 468, mold assessors and mold remediators must operate as separate licensed entities, and Quality Mold Solutions is structured exclusively as an assessment firm with no referral relationships with remediation contractors, ensuring every report reflects only what is found on-site.

Homeowners and real estate professionals working with a [mold inspection company in Maitland, Florida](#) gain access to accredited laboratory testing with results returned within 24 to 48 hours, alongside detailed written reports suitable for real estate transactions, insurance

documentation, or post-remediation verification. The firm's inspection-only model means findings are never influenced by remediation upsells or referral incentives.

"Homeowners deserve an inspection they can trust completely, one that isn't tied to a remediation sale," said Dillon Fralix, Florida-licensed Mold Assessor (MRSA3497) and Council-Certified Microbial Investigator (CMI), speaking on behalf of Quality Mold Solutions. "Expanding into Maitland lets us bring that same unbiased standard to more families across the area."

Quality Mold Solutions holds a Florida State Mold Assessor License and CMI designation issued by the American Council for Accredited Certification, backed by a degree in Microbiological Sciences and membership in the Indoor Air Quality Association. The company maintains a 5.0-star rating across more than 300 Google reviews and offers 7-day-a-week availability with 24/7 emergency response. Online scheduling is available through the Spectora booking platform for homeowners who want to book an assessment without delay.

Quality Mold Solutions continues to serve the greater Orlando area, including Winter Park, Baldwin Park, Altamonte Springs, and now Maitland, with plans to extend certified inspection coverage further across Orange and Seminole Counties in the months ahead.

About Quality Mold Solutions:

Quality Mold Solutions is a Florida-licensed, inspection-only mold assessment and testing firm serving Orlando and surrounding Central Florida communities. The company provides mold assessments, accredited lab testing, post-remediation verification, and protocol development, maintaining a 5.0-star rating across more than 300 Google reviews with no financial ties to remediation services.
