

US Bullion Reserve Offers Wholesale Gold Pricing for IRA and Portfolio Investors

The direct-access bullion specialist delivers volume-based pricing as low as 3% above dealer cost with fully insured 48-hour shipping nationwide.

BEVERLY HILLS, CA, UNITED STATES, August 10, 2026 /EINPresswire.com/ -- US Bullion Reserve, a direct-access precious metals dealer serving serious investors nationwide for more than a decade, is highlighting its transparent, volume-based wholesale pricing model for substantial allocations of physical gold and other precious metals. Rather than applying fixed retail markups to individual products, the company bases premiums on total order size, giving qualified buyers allocating \$50,000 or more access to lower rates as their purchase amount increases.

US Bullion Reserve serves investors, retirement account holders, and institutions seeking long-term positions in physical gold, silver, platinum, and palladium. Allocations from \$50,000 to \$250,000 are priced at 5% above dealer cost, orders from \$250,001 to \$500,000 are priced at 4%, and orders of \$500,001 or more qualify for the 3% tier. Each client works directly with a specialist rather than a call center. For first-time clients, pricing is locked once cleared funds are received, while repeat clients may qualify for a price lock before funding based on account history.

Confirmed orders are typically processed and shipped within 48 hours using fully insured, trackable delivery, with most arriving within a few business days. Product selection, pricing, and delivery details are reviewed with the client before processing.

US Bullion Reserve also offers Gold IRA setup and rollover coordination for investors who want to hold eligible physical metals in a self-directed retirement account. The team can connect clients with vetted IRS-approved custodians, coordinate account-opening and rollover paperwork, and arrange delivery to a chosen IRS-approved depository. Clients may select eligible gold, silver, platinum, and palladium products and work with one of the company's custodian options or an existing approved provider.

With more than 1,000 investors served nationwide, US Bullion Reserve continues to reach buyers who value transparent premiums, direct specialist support, insured fulfillment, and assistance with qualifying retirement-account purchases. Interested investors can call 1.855.655.4653 to speak with a specialist and review current pricing tiers and available products.

US Bullion Reserve is located at 9100 Wilshire Blvd, East Tower, Suite 333E, Beverly Hills, CA

90212.

The company's owner noted that the firm was built specifically for investors who have outgrown the retail model and want to know exactly what they are paying above dealer cost on every transaction. At US Bullion Reserve, every client gets a dedicated specialist, a clear pricing schedule tied to order size, and the assurance that their metals ship fully insured within 48 hours. That level of transparency and service is what serious investors expect, and it is what the team delivers on every order.

About US Bullion Reserve:

US Bullion Reserve is a wholesale precious metals dealer headquartered in Beverly Hills, CA, providing direct access to physical gold, silver, platinum, and palladium for serious investors and retirement account holders across the United States. The company has served more than 1,000 qualified buyers over more than a decade, offering volume-based pricing as low as 3% above dealer cost, dedicated specialist service, and full Gold IRA rollover support through approved custodians and depositories. Every order ships fully insured within 48 hours of funding confirmation.
