

Skytron Introduces VueSync OR Dashboard, Expanding the Clinical Intelligence Platform

Skytron launches SkyVision VueSync OR Dashboard, delivering real-time OR visibility to cut turnover time, streamline prep, and boost utilization.

GRAND RAPIDS, MI, UNITED STATES, August 11, 2026 /EINPresswire.com/ -- Skytron announces the addition of the SkyVision VueSync OR Dashboard to its Clinical Intelligence platform. VueSync is a real-time visibility solution built to help facilities run every OR at peak efficiency.

- Cut turnover time - Track room occupancy status in real time
- Streamline prep - Coordinate cleaning and prep workflows from one view
- Schedule smarter - Use live visual data to plan with confidence
- Maximize utilization - Keep every OR working at full capacity, all day

VueSync In Room

Skytron Logo

VueSync gives staff complete visibility into every operating room through real-time IP camera feeds. Built for efficiency and peace of mind, it lets teams monitor activity, customize layouts to match their workflow, and protect patient privacy with built-in blurring.

Simple by design. The single-page interface has no hidden menus and no learning curve — so every user, regardless of technical comfort, stays focused on managing the room instead of managing the software.

Scales with your facility. VueSync works as a standalone centralized dashboard or integrates with any Skytron video solution to unlock additional workflow functionality — from basic routing to

full streaming, capture, and archiving.

Skytron's Video Integration Portfolio meets each facility where it is, offering everything from simple routing to comprehensive streaming, capturing, and archiving platforms.

About Skytron LLC: Skytron provides safe and efficient healthcare solutions delivered through a local representative network that values long-term relationships and comprehensive service. Focused on providing the highest quality solutions while delivering the lowest cost of ownership, we prioritize transparency and accountability in our actions.
