

HealthLink Dimensions Named No. 2561 on the 2026 Inc. 5000 List of America's Fastest-Growing Private Companies

Healthcare Data and Engagement Company Recognized for 126% Three-Year Revenue Growth, Earning a Place Among the Nation's Most Successful Independent Businesses

ATLANTA, GA, UNITED STATES, August 11, 2026 /EINPresswire.com/ --

HealthLink Dimensions today announced it has been ranked No. 2561 on the 2026 Inc. 5000 list, the annual list of the fastest-growing private companies in America. The list is the most prestigious ranking of the nation's most successful independent and entrepreneurial businesses,

recognizing companies that have achieved remarkable growth while driving innovation, creating jobs, and shaping the future of the economy. Past honorees include companies such as Microsoft, Meta, Chobani, Oracle, and Patagonia.

“

The ranking is a byproduct of clients trusting us with decisions that matter more every year”

*Amar Duggasani, CEO,
HealthLink Dimensions*

This is HealthLink Dimensions’ sixth appearance on the Inc. 5000 and, at No. 2561, its highest placement to date. The company earned its place on the list with 126% revenue growth from 2022 to 2025. The company grew while holding onto nearly all of its clients. Ninety-five percent of HealthLink Dimensions clients continue to do business with the company year after year, and its Net Promoter Score of 79 is industry-leading for healthcare data providers. In a market where life sciences companies,

hospitals, health plans, recruiters, and agencies have grown far more selective about who they trust with healthcare provider data, those two numbers are the clearest measure of what clients get once they choose.

"The ranking is a byproduct of clients trusting us with decisions that matter more every year," said Amar Duggasani, Chief Executive Officer of HealthLink Dimensions. "They are being far more careful about who helps them make those decisions than they were three years ago. Growing at this rate means we earned that trust again and again."

This year's Inc. 5000 recognizes a new class of companies redefining what growth looks like. From AI and advanced manufacturing to healthcare, consumer products, and professional services, these businesses are expanding their impact and proving that entrepreneurial ambition continues to fuel the U.S. economy. Collectively, the 2026 honorees have added more than 627,208 jobs over the past three years.

"Every company on the Inc. 5000 has a story of perseverance, smart decision making, and a refusal to sit still," says Mike Hofman, editor-in-chief of Inc. "Their growth reflects more than strong financial performance—it reflects creativity, resilience, and the customer focus required to build companies that make a lasting impact. We congratulate all honorees on this significant achievement."

Duggasani said the company's focus now is on what it puts in clients' hands next. "Our data assets and AI investment let us build for existing clients faster than most companies our size," he said. "We have been at this more than two decades and we still think we are early in our growth."

Inc. 5000 List Methodology

Companies on the 2026 Inc. 5000 are ranked according to percentage revenue growth from 2022 to 2025. To qualify, companies must have been founded and generating revenue by March 31, 2022. They must be U.S.-based, privately held, for-profit, and independent—not subsidiaries or divisions of other companies—as of December 31, 2025. (Since then, some on the list may have gone public or been acquired.) The minimum revenue required for 2022 is \$100,000; the minimum for 2025 is \$2 million. As always, Inc. reserves the right to decline applicants for subjective reasons.

[About HealthLink Dimensions](#)

HealthLink Dimensions empowers life sciences companies, hospitals, payers, recruiters, and agencies to precisely target and engage healthcare providers. Through its four core product families, Profile, Enrich, Engage, and Pulse, HealthLink Dimensions delivers data-driven solutions that support audience definition, data hygiene, omnichannel outreach, and campaign performance measurement.
