

BIXOLON Launches XT6-60N 6-Inch Industrial Label Printer for Large-Format Labelling Applications

BIXOLON's NEW premium industrial printer delivers wide media support, precision printing and flexible connectivity for demanding applications

SEONGNAM-SI, GYEONGGI-DO, SOUTH KOREA, August 19, 2026

/EINPresswire.com/ -- [BIXOLON Co., Ltd.](#),

a leading global manufacturer of Mobile, Label and POS printers, today launches [the XT6-60N](#), a premium 6-inch (178 mm) industrial label printer.

Joining BIXOLON's existing XT6 Series,

the XT6-60N has been developed to meet the evolving labelling demands of manufacturing, transportation and logistics, healthcare and retail environments. Providing media widths of up to 6-inch (178 mm), the industrial printer delivers print speeds of up to 12 ips (305 mm/sec) at 203 dpi and up to 10 ips (254 mm/sec) at 300 dpi, to support the speed, precision and reliability required for high-volume, mission critical label printing.

“

The XT6-60N complements our current XT6 Series with a dedicated 6-inch industrial printer that delivers large-format print performance, intuitive operations and flexible integration”

*John Kim, Marketing Director
at BIXOLON Co, Ltd.*

Engineered with a flat and right-angle design for seamless integration into industrial workspaces, the XT6-60N features a 5-inch colour TFT touch LCD display for intuitive operations and printer management. Designed to provide consistent print quality across a wide range of media types, the printer incorporates an adjustable 8-level print head pressure control, alongside toolless ribbon tension adjustment to enable fast media changes and simplified maintenance. The XT6-60N also offers versatile media handling with support for both internal and external

rewinders, making it ideal for a wide range of large-format label printing applications.

Built for demanding industrial workflows, the XT6-60N is equipped with up to 1 GB SDRAM and 1

BIXOLON XT6-60N

GB Flash memory to efficiently process complex print jobs and large data files. To simplify deployment into existing operations, the printer supports BIXOLON's SLCS™ command language alongside BPL-Z™ (ZPL II®), BPL-E™ (EPL™) and BPL-D™ (DPL) emulations, allowing businesses to integrate industrial printing into existing applications without changing the software or developing new command scripts. The printer also offers extensive connectivity options with USB, Serial, Ethernet and dual USB Host interfaces as standard and optional WLAN, Bluetooth®, Parallel or GPIO connectivity to suit a wide range of workflow requirements.

"The demand for larger, information-rich labels continues to grow across industrial sectors, requiring printing solutions that combine speed, precision and operational flexibility," said John Kim, Marketing Director at BIXOLON Co, Ltd. "The XT6-60N complements our current XT6 Series with a dedicated 6-inch industrial printer that delivers large-format print performance, intuitive operations and flexible integration, enabling businesses to streamline workflows while supporting a variety of wide labelling applications."

Availability:

The XT6-60N is available to order for the BIXOLON Head Office sales region. The industrial printer will then be available to order from BIXOLON America and Europe sales regions from early 2027.
