Eltropy Named to the 2026 Inc. 5000 List of America's Fastest-Growing Private Companies

The agentic AI platform for credit unions and community banks marks fifth consecutive year on the list

Eltropy named to 2026 Inc. 5000

SANTA CLARA, CA, UNITED STATES, August 12, 2026 /EINPresswire.com/ -- Eltropy, the leading agentic AI platform for credit unions and community banks, today announced it has been named to the [2026 Inc. 5000 list](), the annual ranking of the fastest-growing private companies in America. The recognition marks Eltropy's fifth consecutive year on the list, reflecting sustained growth across its customer base of credit unions and community banks. The list offers a data-driven snapshot of the most successful companies within the economy's most dynamic segment: its independent, entrepreneurial businesses.

> Five consecutive years on the Inc. 5000 says something about staying power. We built our Agentic AI platform because our customers asked for it.”
>
> *Ashish Garg, Co-founder and CEO, Eltropy*

“Five consecutive years on the Inc. 5000 says something about staying power,” said Ashish Garg, Co-founder and CEO of Eltropy. “Credit unions and community banks don't switch platforms on a whim, so growth like this only happens when the product keeps earning their trust year after year. We launched our agentic AI platform this year because our customers asked for it, and that's the same instinct that's driven every decision since we started the company.”

This year's Inc. 5000 class spans AI, advanced manufacturing, healthcare, consumer products, and professional services, with honorees expanding their footprint and adding jobs across the U.S. economy. Among the 5,000 companies on the list, the median three-year revenue growth rate was 130 percent, and those companies collectively added more than 627,208 jobs over the past three years.

The recognition follows a period of expansion for Eltropy, which now serves more than 750 credit unions and community banks nationwide, up from 650 at the start of 2025. In March 2026, the company introduced the industry's first governed environment for credit unions and community banks to build, deploy, and manage AI agents across member communication channels. Eltropy also hosted its annual EMERGE user conference in April, drawing hundreds of CFI leaders, and was separately named to the Inc. Regionals: Pacific list for the third consecutive year earlier this year.

For the full Inc. 5000 list, honoree company profiles, and a searchable database by industry and location, please visit: www.inc.com/inc5000.

"Every company on the Inc. 5000 has a story of perseverance, smart decision making, and a refusal to sit still," says Mike Hofman, editor-in-chief of Inc. "Their growth reflects more than strong financial performance. It reflects the creativity, resilience, and customer focus required to build companies that make a lasting impact. We congratulate all of this year's honorees."

Inc. will celebrate the honorees at the 2026 Inc. 5000 Conference & Gala, taking place October 14–16 in Dallas, Texas, and the top 500 will be listed in the Fall issue of Inc. magazine.

Inc. 5000 List Methodology

Companies on the 2026 Inc. 5000 are ranked according to percentage revenue growth from 2022 to 2025. To qualify, companies must have been founded and generating revenue by March 31, 2022. They must be U.S.-based, privately held, for-profit, and independent — not subsidiaries or divisions of other companies — as of December 31, 2025. (Since then, some on the list may have gone public or been acquired.) The minimum revenue required for 2022 is $100,000; the minimum for 2025 is $2 million. As always, Inc. reserves the right to decline applicants for subjective reasons.

About Eltropy

Eltropy is the leading agentic AI platform for credit unions and community banks: one platform that understands every conversation and hands the busywork to AI agents, so their people can focus on members and customers. Credit unions and community banks use Eltropy to deliver better consumer experiences, improve efficiency, and drive measurable outcomes across the institution, helping them better serve the people and communities that count on them every day. The platform brings together agentic AI, text, voice, video, chat, and automation across the full consumer lifecycle, from lending and servicing to collections, marketing, contact center, and branch operations, all through a single platform integrated with 50+ banking systems.
