

Laicuherb Expands Botanical Tea Portfolio Designed to Support Daily Energy and Menstrual Wellness Rhythms

XIAN, SHAANXI, CHINA, August 11, 2026 /EINPresswire.com/ -- Botanical enterprise Xi'an Chinaherbs Commerce Co., Ltd (operating under the brand name Laicuherb) has announced the release of its rhythm-aligned functional product portfolio. The product range is designed to provide targeted dietary support corresponding to diurnal circadian shifts and monthly physiological phases. [From Morning Energy to Menstrual Ease](#), the company has structured its formulations around chronobiological research and phase-specific botanical inputs.

Chronobiological Framework and Diurnal Formulations

The company's product architecture addresses distinct physiological windows throughout the daily and monthly cycle:

Follicular Phase and Morning Window:

Formulations such as Pure Energy & Refreshing Tea integrate green tea, lotus leaf, and moringa. Green tea provides naturally occurring polyphenols and caffeine, while lotus leaf and moringa supply botanical micronutrients intended for morning consumption during natural circadian cortisol surges.

Ovulatory Phase and Midday Window: Products such as Bloom Hormone Balance Tea utilize rose petals, honeysuckle, and wolfberry. This blend is paired with lipophilic dietary supplements—including Himalayan sea buckthorn whole-berry oil supplying Omega-7 palmitoleic acid—to provide cellular moisture barrier support.

Luteal Phase and Evening Window: Products such as Rest Calm & Sleep Tea incorporate adaptogenic and botanical ingredients including ashwagandha, peppermint, and cinnamon, formulated for evening consumption to support parasympathetic nervous system recovery.

Monthly System and Compliance Specifications

To address multi-phase monthly usage, Laicuherb (Xi'an Chinaherbs Commerce Co.,Ltd) developed the integrated Cycle Tea Set. The kit contains 31 individual tea packets divided across four distinct functional formulations, designed to align with each phase of the menstrual cycle.

The enterprise maintains digital [educational knowledge resources](#) to provide consumers and researchers with technical documentation on how specific plant compounds interact with metabolic and endocrine pathways.

Manufacturing Standards and Quality Certifications

All products within the Laicuherb portfolio are produced under verified international quality control standards:

Herbal Tea Processing: Facilities maintain ISO-FSSC certifications for botanical processing and packaging.

Softgel Manufacturing: Encapsulation of concentrated oil formulas occurs in NSF cGMP-certified facilities.

Additional Credentials: Product lines hold USDA Organic, BRCGS, Non-GMO, and Vegan certifications.

About Laicuherb

Laicuherb, legally registered as Xi'an Chinaherbs Commerce Co.,Ltd, is a dietary supplement manufacturer specializing in phase-aligned botanical products. The company manages raw material sourcing, supercritical extraction processes, and independent laboratory testing for international retail and distribution channels.

Frequently Asked Questions

Are cycle-aligned botanical teas restricted to individuals tracking active menstrual cycles?

While formulated around phase-specific physiological markers, the individual botanical blends can be consumed based on daily functional needs, such as morning alertness or evening relaxation, regardless of cycle tracking status.

What manufacturing standards govern the processing of Laicuherb botanical teas and softgels?

The herbal tea manufacturing facilities hold ISO-FSSC certification, while softgel production adheres to NSF cGMP standards. finished goods also carry USDA Organic, BRCGS, Non-GMO, and Vegan credentials.

Can functional botanical teas be used concurrently with lipid-based dietary supplements?

Yes. Water-soluble herbal infusions and lipophilic softgel supplements (such as sea buckthorn whole-berry oil) operate through distinct nutritional pathways and are designed for concurrent daily use.
