

Enable Me Highlights VA-Contracted Mobility Chairs to Support US Veterans

Through a dedicated FSS contract, Enable Me provides U.S. veterans with specialized VELA Chairs at no cost to qualified individuals via VA benefits.

TAMPA, FL, UNITED STATES, August 12, 2026 /EINPresswire.com/ -- Many U.S. veterans face long-term mobility challenges, chronic pain, or joint strain as a result of their dedicated military service. To address these daily physical barriers, VELA Chairs—operating in the U.S. as Enable Me, a VELA company—is highlighting its [VA-contracted mobility solutions](#) designed to help veterans reclaim their independence at home.

Through FSS Contract #36F79725D0168, Enable Me proudly works directly with the U.S. Department of Veterans Affairs (VA). This contract ensures that qualified veterans can access premium, Danish-engineered VELA Chairs at no personal cost.

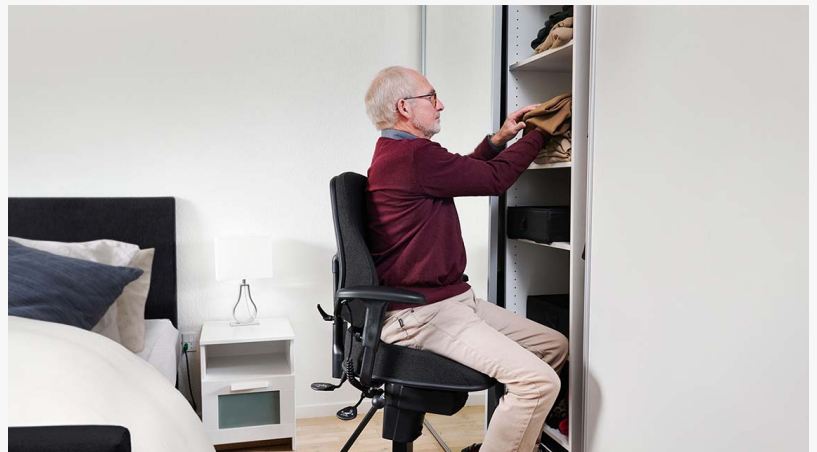

Built for Veterans: Stability, Safety, and Freedom

Whether dealing with combat injuries, aging joints, or generalized mobility loss, veterans require durable medical

equipment (DME) that delivers absolute reliability. The VELA Independence Chair line—including the heavy-duty Epic series and the [VELA Apex featuring Power Wheels](#)—is engineered specifically to provide that support:

Proudly Serving U.S. Veterans: Through a dedicated FSS contract, VELA Chairs are available at no personal cost to qualified veterans, providing premium support without the financial burden.

Stability You Can Trust: A hand-operated central braking system locks the chair firmly in place, giving veterans a rock-solid foundation for safe transfers and daily tasks.

Move Without Getting Up: Smooth-rolling wheels allow users to securely glide across the room while remaining seated, saving vital energy for daily tasks like cooking, personal care, and hobbies.

Stability You Can Trust: A central braking system locks the chair firmly in place. This provides a secure foundation for reaching, shifting, or transferring, drastically reducing the risk of falls inside the home.

Easy Sit-to-Stand Transitions: The integrated powered lift physically assists the user in transitioning from a sitting to a standing position, eliminating physical strain and the need for external assistance.

Thea Johansen, Lead Physical Therapist at VELA Chairs, emphasizes that the right equipment is about preserving dignity and autonomy.

"Veterans have earned the right to live safely and comfortably in their own homes, on their own terms," says Johansen.

"By providing a contract-approved mobility chair that physically prevents falls and reduces joint strain, we are ensuring veterans receive the high-level support they deserve."

Navigating the VA Process

Veterans interested in the VELA Independence Chair must request a mobility evaluation through the Physical Therapy (PT) or Occupational Therapy (OT) department at their local VA Medical Center.

Conserve Vital Energy: Smooth-rolling wheels allow veterans to safely "walk" the chair across the room while seated, protecting aging joints and preserving energy for what matters most.

Effortless Sit-to-Stand Transitions: The integrated electric lift gently raises the user to a standing position, eliminating physical strain and reducing the need for caregiver assistance.

For step-by-step guidance on the VA application process and to explore the full range of [mobility chairs for veterans](#), visit the official VELA Chairs website.

About VELA Chairs

VELA Chairs is a Danish company specializing in indoor mobility solutions that help people with reduced mobility remain independent in their own homes. Designed for seniors and adults with functional limitations, VELA chairs combine stability, safety, and freedom of movement, enabling users to perform everyday activities like cooking, dressing, and personal care while seated.

With more than 500,000 users worldwide and a presence in the U.S. since 2012, VELA Chairs is dedicated to improving quality of life through ergonomic innovation. All chairs are designed and manufactured in Denmark and distributed globally.
