ASTON, PA, UNITED STATES, August 11, 2026 /EINPresswire.com/ -- [Incentive Rebate360](#),

a leading provider of commercial, multi-family, industrial, medical, and hospitality energy incentive and rebate management services, is proud to announce it has been recognized as a Georgia Power Commercial Energy Efficiency Program Gold Participating Contractor for April 2026 through June 2026. The Gold designation recognizes participating contractors that have

“

Receiving Georgia Power's Gold Participating Contractor designation is a testament to our team's commitment to helping organizations take full advantage of available energy efficiency incentives.”

*Jeanette Strickstein, VP of
Incentive Rebate360*

completed more than 50 qualifying energy efficiency projects, helping commercial customers reduce energy consumption while maximizing available utility rebates.

This recognition reflects Incentive Rebate360's continued dedication to simplifying the rebate process for businesses, contractors, and facility owners seeking to improve operational efficiency through energy-saving upgrades. By identifying available incentives, managing rebate applications, and ensuring projects meet program requirements, Incentive Rebate360 helps clients capture every available dollar while accelerating project payback.

“Receiving Georgia Power's Gold Participating Contractor

designation is a testament to our team's commitment to helping organizations take full advantage of available energy efficiency incentives,” said Jeanette Strickstein, VP of Incentive Rebate360 “Every successful rebate represents lower project costs, improved building performance, and greater sustainability for our clients. We're honored to continue partnering with Georgia Power to make energy-efficient upgrades more accessible for businesses across the state.”

Now Is an Ideal Time for Non-Lighting Energy Efficiency Projects

In addition to the Gold recognition, Georgia Power is currently offering a limited-time Rebate Rewards promotion that provides 25% more on eligible non-lighting rebates. Available through November 30, 2026, the promotion applies to qualifying equipment such as HVAC systems, food service and grocery equipment, pumps, and other business equipment. The enhanced incentive can help businesses reduce project costs while making energy efficiency investments even more financially attractive.

The bonus incentive creates an excellent opportunity for organizations planning facility improvements to maximize available funding before the promotion concludes.

Helping Businesses Navigate a Complex Incentive Landscape

Utility rebate programs continue to evolve, with eligibility requirements, incentive levels, and application processes varying by utility and region. Incentive Rebate360 specializes in helping organizations identify available funding opportunities, manage rebate documentation, and successfully secure incentive dollars that might otherwise go unclaimed.

Whether supporting lighting upgrades, HVAC replacements, refrigeration improvements, electric vehicle charging infrastructure, or other energy efficiency projects, Incentive Rebate360 delivers end-to-end rebate management services that reduce administrative burden while maximizing financial returns.

About Incentive Rebate360

Incentive Rebate360 is a [national commercial energy incentive and rebate management](#) company dedicated to helping businesses maximize available utility rebates and government incentives.
