

ScribeEMR Features Chart-to-Claim Workflow at NACHC CHI in Las Vegas

BOSTON, MA, UNITED STATES, August 11, 2026 /EINPresswire.com/ -- [ScribeEMR](#), the company that connects clinical documentation, coding, revenue cycle management (RCM), and virtual operations under one accountable partner, will exhibit at The CHI – Community Health Conference will take place from August 16-18, at the Aria Resort in Las Vegas (Booth #928).

CHI is the premiere gathering of the nation's Community Health Centers, the largest network of primary care providers in the U.S. Currently serving, one in seven Americans, NACHC's goal is for health centers to serve one in three Americans as the nation's healthcare Employer, Provider, and Partner of Choice. The conference will provide attendees with the latest in science, education, practice, and policy that health centers need to stay competitive and financially stable.

"FQHCs and community health centers need a partner that can support their entire workflow to help teams meet quality-measure and compliance requirements, save time, reduce administrative burden, protect revenue, and give providers more capacity to care for patients," says Terry Ciesla, Senior Vice President of ScribeEMR. "We gives health centers flexible documentation options, including dedicated remote scribes and ScribeRyte AI, specialized FQHC coding, RCM and virtual front- and back-office services that integrate seamlessly with major EHR platforms."

CodeEMR, ScribeEMR's subsidiary, has more than 50 community health center clients that leverage the specialized expertise of FQHC audit and coding. CodeEMR provides CHC & FQHC Coding Services including Medical and Behavioral Health Coding, Encounter-Based & Prospective Payment System (PPS) Coding to ensure compliance with Medicare PPS and Medicaid reimbursement models as well as Telehealth & Preventive Service Coding.

"CodeEMR is providing significant value and experience to our CHC and FQHC medical coding clients," says Vice President of Coding Business Development Paul Ferrazza. "We're helping them address their complex challenges while helping to optimize reimbursements, increase profits,

and foster growth for healthcare centers providing care to underserved areas.”

ScribeRyte AI delivers close to 100% accurate clinical notes generated instantly during a patient visit, with options for additional scribe support customized to the needs of each practice and specialty. The platform includes a human-in-the-loop option which will work with an existing AI documentation tool in the practice.

About ScribeEMR

ScribeEMR is the human-in-the-loop healthcare workflow company that connects clinical documentation, coding, revenue cycle management, and virtual operations so healthcare organizations can move from chart to claim with one accountable partner. Its ScribeRyte AI platform delivers fast, highly accurate, HIPAA-compliant clinical documentation and supports workflows across leading EMRs, including eClinicalWorks, Epic, Athenahealth, NextGen, Greenway, and others. ScribeEMR was ranked Best in KLAS for Virtual Scribing Services in the 2024, 2025 and 2026, Best in KLAS: Software & Services Reports and was rated highly in a KLAS First Look report for its ScribeRyte AI platform.
