

Alinabal Group Appoints James Martin as Chief Executive Officer

*Experienced Manufacturing Executive
Tapped to Drive Next Phase of Growth*

MILFORD, CT, UNITED STATES, August 11, 2026 /EINPresswire.com/ -- [Alinabal Group](#), a leading manufacturer of precision metal components and assemblies for high-performance industries, is pleased to announce the appointment of James "Jamie" Martin as Chief Executive Officer, effective immediately. Martin has served as Alinabal Group's Chief Operating Officer since March 2026.

Alinabal Group

Martin brings more than 30 years of leadership experience in industrial manufacturing and metal processing. Throughout his career, he has led organizations ranging from privately held manufacturers to multi-billion-dollar industrial platforms, earning a reputation for strengthening operations, improving performance, and positioning businesses for sustained growth.

“

I am excited to work alongside the Alinabal team as we build on the company's strong foundation and create new opportunities for our customers, employees, and communities.”

*Jamie Martin, Alinabal Group
CEO*

Earlier in his career, Martin held several executive leadership positions with The Marmon Group, a Berkshire Hathaway company, ultimately serving as Sector President with responsibility for multiple operating businesses. He went on to serve as Chief Executive Officer of UPG Enterprises, where he led a diversified industrial

manufacturing platform. Prior to joining Alinabal, he partnered with Edgewater Funds, working alongside portfolio companies to improve operational execution, support acquisition integration, and create long-term value.

Throughout his career, Martin has led manufacturing organizations through periods of growth, operational transformation, and strategic change. He is known for bringing clarity to complex challenges, aligning teams around shared objectives, and building organizations capable of sustained performance. His leadership combines financial discipline, operational expertise, and

a commitment to developing strong teams that deliver lasting results.

As Chief Executive Officer, Martin will lead Alinabal's next phase of growth, working closely with the leadership team to expand the company's capabilities, strengthen customer partnerships, pursue strategic opportunities, and build on Alinabal's longstanding reputation for engineering excellence and manufacturing quality. His vision is centered on creating long-term value for customers while continuing to invest in the people whose talent, dedication, and craftsmanship have defined Alinabal's success.

"Alinabal's Board is thrilled to welcome Jamie Martin as our next Chief Executive Officer," said Jim Balet, Board Member. "He brings the kind of hands-on operating experience that comes from years of building metal manufacturing businesses, paired with a genuine passion for the people who make this company what it is. Jamie's consistent focus on excellence will impact employees and customers alike. Under Jamie's leadership, Alinabal will enter an exciting new chapter of growth and impact."

"Great companies are built by great people," said Martin. "I believe in creating an environment where employees feel valued, challenged, and empowered to succeed. I believe in fostering a culture that puts our customers first, supports our employees, and never compromises on integrity or quality. I am excited to work alongside the Alinabal team as we build on the company's strong foundation and create new opportunities for our customers, employees, and communities."

About Alinabal Group:

Founded in 1913, the Alinabal Group of companies specializes in precision metal components and assemblies for high-performance industries and operates six manufacturing facilities across Connecticut, South Carolina, and Massachusetts. With decades of expertise, expansive manufacturing capabilities, and a customer-focused culture, Alinabal delivers precision products that meet the rigorous requirements of its Aerospace, Defense, Transportation, Medical, Power Sports, Power Generation, and Industrial customers.
