LLC, a leading online custom sign maker, has been ranked No. 3,152 on the [2026 Inc. 5000 list](#), the annual ranking of the fastest-growing private companies in the United States. This marks the fifth consecutive year Square Signs has earned a place on the prestigious list.

The Inc. 5000 recognition reflects years of continuous growth driven by the dedication of every member of the Square Signs team. The company bases its success on delivering exceptional products and service to the customers, whom it holds at the heart of its business.

"Being named to the Inc. 5000 for a fifth straight year is a testament to our entire team and to the customers who trust us with the signage for their businesses and homes alike," said Arman Danielyan, CEO of Square Signs. "Every department, from customer service and production to development and marketing, has a hand in making our platform more intuitive, our reach wider, and our customer experience better."

This year, the company has been able to expand its reach to new audiences while rolling out new products and improving features that further simplify the ordering process. Square Signs prides itself on how people-centric the customer journey is, from the first visit to its website or an initial phone inquiry, through production and delivery, to responsive post-purchase support.

Earlier in 2026, Square Signs underwent a comprehensive rebrand, reflecting the bolder path the company is planning for the years ahead. The refreshed identity signals more than a new look: customers can expect a more comprehensive product catalog, faster production times, and even more responsive customer service as Square Signs continues to raise the bar on the end-to-end

experience.
